TITLE 7—AGRICULTURE

CHAPTER VII—AGRICULTURAL ADJUSTMENT ADMINISTRATION

PART 727—FLUE-CURED TOBACCO

PROCLAMATION OF MARKETING QUOTAS FOR THE THREE MARKETING YEARS BEGINNING JULY 1, 1941

I, H. A. Wallace, Secretary of Agriculture, acting under and pursuant to, and by virtue of, the authority vested in me by Section 312 of the Agricultural Adjustment Act of 1938, as amended, do hereby make the following proclamation:

§ 727.302 Proclamation of marketing quotas for flue-cured tobacco for the three marketing years beginning July 1, 1941. In the referendum of farmers engaged in the production of the 1940 crop of flue-cured tobacco, conducted by the Secretary of Agriculture on the twentieth day of July 1940, the total number of votes cast was 203,059, of which 174,779, or 86.1 per centum were in favor of the quota which had been proclaimed for the marketing year beginning July 1, 1941, and in favor of having marketing quotas in effect for the three marketing years beginning on that date; 3,655, or 1.8 per centum were opposed to having marketing quotas in effect for the three marketing years, but in favor of the quota proclaimed for the marketing year beginning July 1, 1941; and 24,625, or 12.1 per centum were opposed to the proclaimed quota and to having marketing quotas in effect for the three marketing years. Therefore, the national marketing quota of 618,000,000 pounds, proclaimed by the Secretary of Agriculture on July 9, 1940, will be in effect for such marketing year, and marketing quotas for flue-cured tobacco will be in effect for the three marketing years, beginning on July 1, 1941. (Sec. 312 (c), 52 Stat. 46; 7 U.S.C. Supp. V, 1312; as amended by

Public No. 628, 76th Congress, approved June 13, 1940)

Done at Washington, D. C., this 27th day of August 1940. Witness my hand and the seal of the Department of Agriculture.

[SEAL]

H. A. WALLACE,
Secretary of Agriculture.

TITLE 8—ALIENS AND CITIZENSHIP

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE

[General Order No. C-23]

REGULATIONS GOVERNING THE ISSUANCE AND USE OF NON-RESIDENT ALIENS' BORDER-CROSSING IDENTIFICATION CARDS

AUGUST 23, 1940.

Pursuant to the authority contained in sections 37 (a) and 30 of Title III of the "Alien Registration Act, 1940" (Public, No. 670, 76th Congress, approved June 28, 1940), the following regulations are hereby prescribed in aid of the administration and enforcement of said Title III, and are published as an addition to Part 3, Title 8, Code of Federal Regulations:

§ 3.60 *Non-resident aliens' border-crossing identification cards; temporary admission of non-resident aliens who are citizens of Canada, Newfoundland or Mexico and domiciled therein or British subjects domiciled in Canada or Newfoundland.* Aliens who are citizens of Canada, Newfoundland or Mexico and domiciled therein or British subjects domiciled in Canada or Newfoundland and who are otherwise admissible, may be admitted to the United States for a period of less than thirty days upon presentation of a border-crossing identification card which (1) has been issued to the holder, within one year of the date of the application for admission, by a United States diplomatic or consular officer or immigrant inspector, and (2) is attached to a passport or document in

the nature of a passport duly issued to the holder by the appropriate authorities of Canada, Newfoundland or Mexico, notwithstanding that such aliens are not in possession of a consular visa or reentry permit. (Secs. 37 (a) and 30, Act of June 28, 1940; Public No. 670, 76th Congress)

§ 3.61 *Non-resident aliens' border-crossing identification cards; issuance by immigrant inspectors to non-resident aliens who are citizens of Canada, Newfoundland or Mexico and domiciled therein or British subjects domiciled in*

Canada or Newfoundland. Immigrant inspectors at land border ports of entry are authorized to issue non-resident alien's border-crossing identification cards to aliens who (1) are citizens of Canada, Newfoundland or Mexico and domiciled therein or British subjects domiciled in Canada or Newfoundland, (2) present a valid passport or document in the nature of a passport duly issued to the holder by the appropriate authorities of Canada, Newfoundland or Mexico, (3) desire temporary admission into the United States for a period of less than thirty days, and (4) are otherwise admissible to the United States. Such aliens shall be required to fill out and sign under oath an application (Form No. 257A) stating the applicant's legal name in full; the place and date of the applicant's birth; the nature of the travel document presented by the applicant; by whom the applicant is accompanied; the applicant's present address; the applicant's address (if any) in the United States; the purpose of the applicant's entry; and the length of the applicant's proposed stay; and stating further the applicant's understanding that he will be required to depart from the United States at the end of his sojourn and that if he remains in the United States for thirty days or longer he will be required prior to the expiration of the thirty-day period to register and be fingerprinted in accordance with the provisions of the Alien Registration Act, 1940. The non-resident alien's identification card issued to such alien shall bear the fingerprint of the alien's right index finger and shall be attached by metal eyelets to the last page of the alien's passport or document in the nature of a passport. The card shall be issued in duplicate and the duplicate retained by the immigrant inspector at the first port of entry. Such non-resident alien's border-crossing cards shall be valid for a period of not more than one year, but in no event beyond the period of validity of the passport or document in the nature of a passport to which it is attached, and shall be subject to cancellation and withdrawal at any time within the discretion of the proper immigration officials. TITLE 16—COMMERCIAL PRACTICES

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. 3974]

IN THE MATTER OF AIR CONDITIONING TEXTILES, INC.

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results:* § 3.6 (y10) *Advertising falsely or misleadingly—Scientific or other relevant facts:* § 3.96 (a) (6) *Using misleading name—Goods—Qualities or properties.* Using, in connection with offer, etc., in commerce, of respondent's "Air Conditioning the Human Body", or "Air Conditioning", or other similar, soap, the term "Air Conditioning" or "Air Conditioning the Human Body", or any other term of similar import, to designate or describe its said soap, or otherwise representing that said soap possesses air-conditioning properties or qualities; or representing that said soap reduces body temperature or reduces humidity or eliminates perspiration objections; or that the human body breathes through the pores of the skin; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Air Conditioning Textiles, Inc., Docket 3974, August 19, 1940]

ORDER TO CEASE AND DESIST

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 19th day of August, A. D. 1940.

This proceeding having been heard¹ by the Federal Trade Commission upon the complaint of the Commission, the answer of the respondent, testimony and other evidence taken before John W. Addison, an examiner of the Commission theretofore duly designated by it, in support of the allegations of the complaint, brief filed by counsel for the Commission, and oral argument by B. G. Wilson, counsel for the Commission, and by the president of the respondent corporation, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That respondent, Air Conditioning Textiles, Inc., a corporation, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of its soap designated as "Air Conditioning the Human Body" soap and as "Air Conditioning" soap, or any other soap composed of substantially similar ingredients or possessing substantially similar properties, whether sold under the same name or under any other name, in commerce, as "com-

¹ 5 F.R. 334.

merce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(a) Using the term "Air Conditioning" or "Air Conditioning the Human Body," or any other term of similar import, to designate or describe its said soap, or otherwise representing that said soap possesses air-conditioning properties or qualities;

(b) Representing that said soap reduces body temperature or reduces humidity or eliminates perspiration objections;

(c) Representing that the human body breathes through the pores of the skin.

It is further ordered, That the respondent shall within sixty days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

[Docket No. 4165]

IN THE MATTER OF L. HOFFMAN

§ 3.6 (a) (10.5) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—History.* Representing, in connection with offer, etc., in commerce, of desk pads and other office accessories, that respondent's business was established in the year 1888, or at any other date prior to the time that such business was in fact established, prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, L. Hoffman, Docket 4165, August 20, 1940]

§ 3.6 (c) *Advertising falsely or misleadingly—Composition of goods.* Using, in connection with offer, etc., in commerce, of desk pads and other office accessories, the terms "Flexhide Calf Finish Leather", "Genuine Top Grain Leather", and "Top Grain Furniture Leather", or any other terms of similar import and meaning, to designate, describe or refer to desk pads made from the inner split of leather, or using, in said connection, aforesaid or other terms, as above set forth, to designate, describe or refer to desk pads made in whole or in part from the outer split of leather without revealing that split leather has been used in the manufacture of such desk pads; or representing, through the use of the words "Flexhide", "Top Grain", "Leather", or any other word or words of similar import and meaning, alone or in conjunction with other

words, or in any other manner, that desk pads manufactured in whole or in part from the under layer or flesh side of hides, known as split leather, are made from the outside or surface layer of the hide; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, L. Hoffman, Docket 4165, August 20, 1940]

§ 3.6 (c) *Advertising falsely or misleadingly—Composition of goods.* Using, in connection with offer, etc., in commerce, of desk pads and other office accessories, the phrase "Grecian Gold Tooled Border" or "Genuine Gold Tooled Border", or any other phrase containing the word "gold", or the word "gold" alone, to designate, describe or refer to borders of desk pads, which borders are not in fact manufactured from gold leaf, prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, L. Hoffman, Docket 4165, August 20, 1940]

§ 3.6 (u) *Advertising falsely or misleadingly—Quality:* § 3.6 (y5) *Advertising falsely or misleadingly—Sample, offer or order conformance:* § 3.6 (gg) *Advertising falsely or misleadingly—Value:* § 3.72 (m10) *Offering deceptive inducements to purchase—Sample, offer or order conformance.* Using, in connection with offer, etc., in commerce, of desk pads and other office accessories, pictorial representations of desk pads not offered for sale and sold by respondent as representative of the desk pads offered for sale and sold by respondent; or representing, through the use of statements, pictures, or otherwise, that respondent's desk pads or other office accessories are of a grade, quality and value greater than that which actually exists; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, L. Hoffman, Docket 4165, August 20, 1940]

ORDER TO CEASE AND DESIST

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 20th day of August, A. D. 1940.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint, and states that he waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Louis Hoffman, his representatives,

agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of desk pads and other office accessories in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing that respondent's business was established in the year 1888, or at any other date prior to the time that such business was in fact established;

(2) Using the terms "Flexhide Calf Finish Leather", "Genuine Top Grain Leather", and "Top Grain Furniture Leather", or any other terms of similar import and meaning to designate, describe or refer to desk pads made from the inner split of leather;

(3) Using the terms "Flexhide Calf Finish Leather", "Genuine Top Grain Leather", and "Top Grain Furniture Leather", or any other terms of similar import and meaning to designate, describe or refer to desk pads made in whole or in part from the outer split of leather without revealing that split leather has been used in the manufacture of such desk pads;

(4) Representing, through the use of the words "Flexhide", "Top Grain", "Leather", or any other word or words of similar import and meaning, alone or in conjunction with other words, or in any other manner, that desk pads manufactured in whole or in part from the under layer or flesh side of hides, known as split leather, are made from the outside or surface layer of the hide;

(5) Using the phrase "Grecian Gold Tooled Border" or "Genuine Gold Tooled Border", or any other phrase containing the word "gold", or the word "gold" alone, to designate, describe or refer to borders of desk pads, which borders are not in fact manufactured from gold leaf;

(6) Using pictorial representations of desk pads not offered for sale and sold by respondent as representative of the desk pads offered for sale and sold by respondent;

(7) Representing, through the use of statements, pictures, or otherwise, that respondent's desk pads or other office accessories are of a grade, quality and value greater than that which actually exists.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

CHAPTER I—COMMODITY EXCHANGE ADMINISTRATION¹

[Hearing Docket CE-P No. 4]

PART 150—ORDERS OF THE COMMODITY EXCHANGE COMMISSION

FINDINGS OF FACT, CONCLUSIONS, AND ORDER IN THE MATTER OF LIMITS ON POSITION AND DAILY TRADING IN COTTON FOR FUTURE DELIVERY

Findings of Fact

Pursuant to the provisions of section 4a of the Commodity Exchange Act (7 U.S.C., Sup. V, sec. 6a), the Commodity Exchange Commission, after investigation and full consideration of the record made at public hearings held in New York, New York, on October 9, 10, and 11, 1939, and at New Orleans, Louisiana, on October 16 and 17, 1939, of which due notice² had been given and at which all persons were given opportunity to hear, present, refute, and comment upon evidence in the premises, does hereby find:

(a) The holding of contracts for cotton for future delivery on a contract market by a person who holds or controls a speculative net position of more than 10 percent of the open contracts in any one cotton future on such contract market tends to cause sudden and unreasonable fluctuations or changes in the price of cotton not warranted by changes in the conditions of supply or demand.

(b) The holding of contracts for cotton for future delivery on a contract market by a person who holds or controls a net position in any one future, representing straddles between cotton futures or markets, has less tendency to cause sudden and unreasonable fluctuations or changes in price than other types of speculative positions, except when such net position is in a future during the delivery month thereof.

(c) Speculative buying or selling by a person during one business day of an amount in excess of 10 percent of the open contracts in any one cotton future on a contract market tends to cause sudden and unreasonable fluctuations or changes in the price of cotton not warranted by changes in the conditions of supply or demand.

(d) The buying or selling by a person on a contract market during one business day of cotton futures representing straddles between futures or markets has

less tendency to cause sudden and unreasonable fluctuations or changes in price than other types of speculative trading, except when such buying or selling is in a future during the delivery month thereof.

(e) A trading limit fixed in terms of a stated amount will offer less difficulty in practical application than a fluctuating limit based on a percentage of the open contracts.

(f) During those periods between January 1936 and May 1939 when the holder of a net position in any one future held 10 percent or more of the open contracts in such future, the daily open contracts in such futures averaged 312,000 bales per future. These periods included the delivery months of the respective futures. The open contracts during a large part of such periods were considerably lower than 312,000 bales.

(g) From October 1937 to May 1939, 83 percent of the trading and 86 percent of the open contracts in cotton futures on all contract markets in the United States were on the New York Cotton Exchange.

(h) Sudden and unreasonable price fluctuations caused by the holding of speculative positions or by speculative trading in cotton for future delivery on the New York Cotton Exchange are reflected on the other contract markets conducting trading in cotton for future delivery.

CONCLUSIONS

Upon the foregoing facts, it is concluded that in order to prevent excessive speculation in cotton futures which will cause sudden, unreasonable, and unwarranted fluctuations and changes in price resulting in an undue and unnecessary burden on interstate commerce in cotton, it is necessary to establish limits on the amount of speculative trading under contracts of sale of cotton for future delivery on contract markets which may be done by any one person; that 30,000 bales is a reasonable limit on the net long or net short speculative position which any person may hold or control and upon the daily speculative purchases or sales which any person may make in cotton on any one contract market in any one future; that net positions in any one future, representing straddles, and purchases and sales representing straddles, between cotton futures or markets, should be exempted from this limit, except during the delivery month.

ORDER

§ 150.2 *Limits on position and daily trading in cotton for future delivery. It*

is hereby ordered. That the following limits on the amount of speculative trading under contracts of sale of cotton for future delivery, on or subject to the rules of any contract market, which may be done by any person, be, and they are hereby, proclaimed and fixed, to be in full force and effect on and after September 5, 1940:

(a) *Position limit.* The limit on the maximum net long or net short position which any person may hold or control in cotton on any one contract market is 30,000 bales in any one future.

(b) *Daily trading limit.* The limit on the maximum amount of cotton which any person may buy, and on the maximum amount which any person may sell, on any one contract market during any one business day is 30,000 bales in any one future.

(c) *Bona fide hedging; straddles.* The foregoing limits upon position and upon daily trading shall not be construed to apply to bona fide hedging transactions, as defined in paragraph 3 of section 4a of the Commodity Exchange Act (7 U.S.C., Sup. V, sec. 6a (3)), nor, except during the delivery month, to (1) net positions in any one future to the extent that they are shown to represent straddles between cotton futures or markets, or (2) purchases and sales of cotton which are shown to represent straddles or the closing of straddles between futures or markets.

(d) *Manipulation; corners; responsibility of contract market.* Nothing contained herein shall be construed to affect any provisions of the Commodity Exchange Act relating to manipulation or corners, nor to relieve any contract market or its governing board from responsibility under paragraph (d) of section 5 of the Commodity Exchange Act (7 U.S.C., Sup. V, sec. 7 (d)) to prevent manipulation and corners.

(e) *Definition.* As used herein, the word "person" includes individuals, associations, partnerships, corporations, and trusts. (Sec. 4a, as added by sec. 5, 49 Stat. 1492; 7 U.S.C., Sup. V, sec. 6a)

In testimony whereof, we have hereunto affixed our respective signatures, this 26th day of August 1940.

[SEAL] H. A. WALLACE,
Secretary of Agriculture, Chairman.

HARRY L. HOPKINS,
Secretary of Commerce.

ROBERT H. JACKSON,
Attorney General.

TITLE 30—MINERAL RESOURCES
CHAPTER III—BITUMINOUS COAL
DIVISION

[General Docket No. 15]

MINIMUM PRICES AND MARKETING RULES
AND REGULATIONS

[The order establishing the minimum prices and marketing rules and regulations, the order extending the effective date, the marketing rules and regulations, and the price schedules (with supplements) for Districts Nos. 1 to 8 inclusive, appeared in the "Federal Register" for Saturday, August 24, 1940. The price schedules (with supplements) for Districts Nos. 9 to 15, inclusive, appear in this issue. The schedules (with supplements) for Districts Nos. 16 to 20, 22, and 23, and the schedule of common consuming market areas, will appear during the latter part of this week.]

PART 329—MINIMUM PRICE SCHEDULE,
DISTRICT No. 9

CONTENTS

SUBPART A—ALL SHIPMENTS EXCEPT TRUCK

Sec.

- 329.1 Price exceptions and instructions.
- 329.2 Description of size groups.
- 329.3 Table showing principal sizes included in each size group.
- 329.4 Key sizes and commercial size groups.
- 329.5 Alphabetical list of code members.
- 329.6 General prices.
- 329.7 Special prices.
 - (a) Railroad locomotive fuel.
 - (b) Prices for river (Free alongside deliveries) and Ex-river shipments.
 - (c) Ex-river deliveries.

SUBPART B—TRUCK SHIPMENTS

- 329.21 Price instructions and exceptions.
- 329.22 Description of size groups.
- 329.23 Table showing principal sizes included in each size group.
- 329.24 General prices.

SUBPART A—ALL SHIPMENTS EXCEPT TRUCK

§ 329.1 *Price instructions and exceptions.*—(a) *Price instructions.* (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to Section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to Section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona-fide and legitimate farmers' co-operative organizations.

(3) In the sale of coal to destinations outside the boundary of the United States, prices listed herein are for payment in United States funds.

(4) Size designations listed herein are for round hole screens. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for the equivalent sizes produced by use of round hole screens, as determined by the test prescribed by A. S. T. M. designation

D-410-38. If the percentage of oversize exceeds five per cent, the price for the next larger size group classification for that mine shall apply.

(5) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(6) The prices listed herein for shipment via rail transportation apply also for shipment via all other methods of transportation except truck or wagon.

(7) The Market Areas to which reference is made in this schedule are those which are numerically designated and geographically described in the "Schedule of Common Consuming Market Areas, Established in Connection with the Effective Minimum Prices, Pursuant to Section 4, Part II of the Bituminous Coal Act of 1937."

(8) Railway Locomotive Fuel prices listed herein shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

(9) The term "Industrial Coal" in this schedule means coal used in those industrial plants which buy and receive coal in carload quantities for their own use and which have physical railway or waterway connections for receiving coal.

(10) The term "Domestic Coal" in this schedule means coal other than that defined as "Industrial Coal."

(11) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation

charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(12) Various parts of this schedule contain special notes, instructions and exceptions, applicable to specified situations. Such special notes, instructions and exceptions are in addition to the general price instructions and price exceptions listed herein. In the event of any inconsistency between such special notes, instructions and exceptions, and the general price instructions and price exceptions, the special notes, instructions and exceptions shall control.

(13) In the event any price instruction, price exception, or any other provision of this schedule is inconsistent with any provision of any order, rule or regulation of the National Bituminous Coal Commission or the Bituminous Coal Division issued prior to the effective date of this schedule, the price instructions and exceptions and provisions of this schedule shall control.

(b) *Price exceptions.* (1) Minimum prices for any sale of coal which, under Section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by Section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal in Size Group Nos. 1 to 12, inclusive, and Nos. 17 to 20, inclusive, is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

When coal in Size Group Nos. 13 to 16, inclusive, and Nos. 21 to 29, inclusive, is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton, provided, however, That such increase shall apply only during the period April 1 to November 15, inclusive, in each year.

§ 329.2 *Description of size groups*

SIZE DIMENSIONS

LUMP COALS

Size group	Designation	Predominant sizes	Maximum	Minimum
1	Lump	5", 6", 7"	No limit	Larger than 4"
2	Lump	4"	Not exceeding 4"	Larger than 3"
3	Lump	3"	Not exceeding 3"	Larger than 2"
4	Lump	2"	Not exceeding 2"	Larger than 1½"
6	Lump	1½"	Not exceeding 1½"	Smaller than 1½"

§ 329.2 Description of size groups—Continued

WASHED OR AIR-CLEANED DOUBLE SCREENED NUT COALS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
17	Nut	2 x 3/4	2"	Larger than 1 1/2"	3/8"	Larger than 10 Mesh or 3/16"
18	Nut	1 1/2 x 3/4	1 1/2"	Larger than 3/4"	Smaller than 1 1/2"	Larger than 3/8"
19	Nut	1 1/2 x 3/4	1 1/2"	Larger than 3/4"	3/8"	Larger than 10 Mesh or 3/16"
20	Nut	3/4 x 3/4	3/4"	Larger than 10 Mesh or 1 1/2"	Smaller than 10 Mesh or 3/16"	Larger than 19 Mesh or 3/32"
21	Nut or Dedusted Washed Screenings	2" x 10 Mesh	2"	Larger than 1 1/2"	10 Mesh or 3/16"	Larger than one millimeter
22	Nut or Dedusted Washed Screenings	1 1/2" x 10 Mesh	1 1/2"	Larger than 3/4"	10 Mesh or 3/16"	Larger than one millimeter

WASHED OR AIR-CLEANED SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
23	Screenings	2 x 0	2"	Larger than 1 1/2"	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.
24	Screenings	1 1/2 x 0	1 1/2"	Larger than 3/4"	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.
25	Carbon	3/2 x 0	3/2"	Smaller than 3/8"	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.

DRY DEDUSTED SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
26	Screenings	2 x 0	2"	Larger than 1 1/2"	Fines are the resultant coal which passes through a dedusting screen with openings not larger than 3/8". Not more than 50 percent of 3/8" minus shall be removed, except that there shall be no limit to the percent of fines removed through the use of standard dedusting equipment with screens with openings smaller than 8 mesh.	Fines are the resultant coal which passes through a dedusting screen with openings not larger than 3/8". Not more than 50 percent of 3/8" minus shall be removed, except that there shall be no limit to the percent of fines removed through the use of standard dedusters equipped with screens with openings smaller than 8 mesh.
27	Screenings	1 1/2 x 0	1 1/2"	Larger than 3/4"	Fines are the resultant coal which passes through a dedusting screen with openings not larger than 3/8". Not more than 50 percent of 3/8" minus shall be removed, except that there shall be no limit to the percent of fines removed through the use of standard dedusters equipped with screens with openings smaller than 8 mesh.	Fines are the resultant coal which passes through a dedusting screen with openings not larger than 3/8". Not more than 50 percent of 3/8" minus shall be removed, except that there shall be no limit to the percent of fines removed through the use of standard dedusters equipped with screens with openings smaller than 8 mesh.
28	Carbon	3/2 x 0	3/2"	Smaller than 3/8"	Smaller than 8 mesh.	Larger than 28 mesh.
29	Carbon	3/2 x 0	3/2"	Smaller than 3/8"	Smaller than 28 mesh.	Smaller than 28 mesh.

§ 329.2 Description of size groups—Continued

DOUBLE SCREENED COALS—WASHED OR UNWASHED

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
1	Egg	6 x 5, 7 x 5, 8 x 6	No Limit	5"	No Limit	Larger than 4"
2	Egg	6 x 4, 7 x 4	No Limit	4"	4"	Larger than 3"
3	Egg	6 x 3, 7 x 3, 8 x 3	No Limit	3"	3"	Larger than 2"
4	Egg	5 x 2, 6 x 2, 7 x 2	No Limit	Larger than 4"	4"	Larger than 1 1/2"
5	Egg	3 x 2, 4 x 2	4"	Larger than 2"	2"	Smaller than 1 1/2"
6	Egg	3 x 1 1/2, 6 x 1 1/2	No Limit	Larger than 2"	1 1/2"	Larger than 3/4"
8	Stove	2 x 1 1/2	2"	Larger than 1 1/2"	Smaller than 2"	Larger than 3/4"

MINE RUN AND RESULTANTS

Size group	Designation	Description	
		Description	
7	Mine Run, Modified Mine Run, Resultants	Straight Mine Run: no fines removed. Mine Run, modified by the removal of any intermediate size or sizes; no fines removed. All resultants larger than 2"; no fines removed.	

RAW DOUBLE SCREENED NUT COALS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
9	Nut	2 x 3/4	2"	Larger than 1 1/2"	3/8"	Larger than 10 Mesh or 3/16"
10	Nut	1 1/2 x 3/4	1 1/2"	Larger than 3/4"	Smaller than 1 1/2"	Larger than 3/8"
11	Nut	1 1/2 x 3/4	1 1/2"	Larger than 3/4"	3/8"	Larger than 10 Mesh or 3/16"
12	Nut	3/4 x 3/4	3/4"	Larger than 10 Mesh or 3/16"	Smaller than 3/4"	Larger than 10 Mesh or 3/16"

RAW SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
13	Screenings	2 x 0	2"	Larger than 1 1/2"	No fines removed.	No fines removed.
14	Screenings	1 1/2 x 0	1 1/2"	Larger than 3/4"	No fines removed.	No fines removed.
15	Carbon	3/2 x 0	3/2"	Smaller than 3/8"	No fines removed.	No fines removed.
16	Dust	10 Mesh x 0	10 Mesh or 3/16"	Smaller than 10 Mesh or 3/16"	No fines removed.	No fines removed.

RAW-SCREENINGS-DRY AND WATER DEDUSTED

Top size		Bottom size			Water de- dusted
		Raw	Dry dedusted		
2	2	x 0 43 x	10M 53 1	x	10M 83
3	3	x 0 43 x	10M 53 1	x	10M 83
4	4	x 0 44 x	10M 54 1	x	10M 84
5	5	x 0 44 x	10M 54 1	x	10M 84
6	6	x 0 45 x	10M 55 1	x	10M 85
7	7	x 0 46 x	10M 56 1	x	10M 86
8	8	x 0 46 x	10M 56 1	x	10M 86
9	9	x 0 47 x	10M 57 1	x	10M 87
10	10	x 0 47 x	10M 57 1	x	10M 87
11	11	x 0 47 x	10M 57 1	x	10M 87
12	12	x 0 48 x	58 1	x	10M 88
13	13	x 0 48 x	58 1	x	10M 88
14	14	x 0 49 x	58 1	x	10M 89
15	15	x 0 49 x	58 1	x	10M 89
16	16	x 0 50 x	58 1	x	10M 89
17	17	x 0 50 x	58 1	x	10M 89

1 See schedule for further description of bottom size.
2 Under 8 mesh but over 28m.
3 28m or smaller.

Size group:	Key sizes	Size group:	Key sizes
1	1, 2, 30.	22	74, 75, 76, 77, 78.
2	3, 31.	23	63.
3	4, 32.	24	64.
4	5, 33.	25	65, 66, 67.
			68, 69, 70.

GENERAL INSTRUCTIONS

For top dimension not shown use size immediately to right—Example $\frac{3}{16} = \frac{3}{16}$.
For bottom dimension not shown use size immediately below—Example $1\frac{1}{4} = 1\frac{1}{4}$.
Washed means either wet or dry mechanical cleaning.

WASHED DOUBLE SCREENED COALS

[illegible]

1 River.

SCREENINGS—WASHED AND WASHED DEDUSTED

Top size	Bottom size	Washed screenings	Washed dusted screenings
X	28M	63	73.4
X	28M	63	73.4
X	28M	64	74.4
X	28M	65	75.4
X	28M	66	76.4
X	28M	66	76.4
X	28M	67	76.4
X	28M	67	77.4
X	28M	67	77.4
X	28M	68	77.4
X	28M	69	78.4
X	28M	70	78.4

1 Mm. (millimeter) = 28M (mesh).

 $8M(\text{mesh}) = \frac{1}{8}''$

4M (mesh) = $\frac{1}{2}$ ".
The higher the mesh the smaller the size—5M is larger than 10M; 10M is larger than 28M; 28M is larger than 48M.
* See table below for further description of actual bottom size on washed screenings.

IN CENTS PER NET TON OF 2,000 POUNDS

Consumer railroad	Any lump or double screened coal	Mine run	Any screen-ings, 2" or less, from which no fines have been re-moved
Canadian National Railways, Columbus and Greenville Rwy. Co.	135	135	135
Grand Trunk Western R. R., Gulf, Mobile and Northern R. R. Co.	135	135	100
Illinois Central R. R. Co.	180	165	100
Mississippi Central R. R. Co.		149	100
Wabash Rwy. Co.		135	
All consumer railroads not specifically priced herein	180	165	100

1 Price of 50 cents per net ton shall apply to 34" x 0 slack coal, from which no fines have been removed, when consigned to the Illinois Central Railroad Company for powerhouse use.

2 Price of 155 cents per net ton shall apply to nut coal not larger than 3" x 2", when consigned to the Louisville and Jeffersonville Bridge and Railroad Company.

(b) Prices for river (free alongside deliveries) and ex-river shipments—(1) Special river price instructions and exceptions—(i) Definition of "River (free alongside) deliveries." "River (free alongside) deliveries", as used in this Schedule, means:

(a) Deliveries in barges or other floating equipment alongside river docks or other barge unloading facilities to purchasers for consumption in their plants which adjoin such docks or other barge unloading facilities;

(b) Deliveries in barges or other floating equipment to purchasers for consumption on floating equipment operated by them;

(c) Deliveries in barges or other floating equipment alongside river docks or other barge unloading facilities to those retail dealers (not located in the Cincinnati, Louisville, Evansville, Memphis, Chicago or Minneapolis-St. Paul areas as herein defined), for resale at retail, who operate such river docks or other barge unloading facilities and whose yard and

storage facilities (in which the coal purchased free alongside is stored, when it is stored) adjoin such river docks or other barge unloading facilities; and

(d) Deliveries to any person at the mine or at a point nearer the mine than the river docks or other barge unloading facilities for transportation in barges or other floating equipment to a purchaser who takes free alongside delivery, within the meaning of Item 1-(a) or Item 1-(c) above.

(ii) Definition of "Ex-river deliveries." "Ex-river deliveries", as used in this Schedule, means deliveries involving river transportation other than those defined in Item 1, above.

(iii) Special cases. Any code member or Consumers Counsel Division, on behalf of any consumer or retail dealer (which consumer or retail dealer falls within the definition of a purchaser of ex-river coal, as defined in Item 2 above, but who (a) in the past customarily purchased coal moving by river at such prices and under such conditions that the coal moving by river was not competitive with coal of comparable quality moving by rail, truck or ex-lake dock, or (b) in the past regularly purchased coal moving by river at a savings over available prices for comparable coal moving by rail, truck or ex-lake dock), may file a petition requesting that such consumer or retail dealer be enabled to purchase at the minimum f. o. b. mine prices for free alongside delivery; and the Division shall, after hearing and upon satisfactory showing authorize the sale of river coal to such purchaser by one or more code members at minimum f. o. b. mine prices for free alongside delivery, subject to such conditions as may be necessary to accomplish the objectives of the Act and to maintain the prescribed minimum prices. Any such petition filed by a code member or Consumers Counsel Division, as herein provided, and the procedure subsequent thereto shall be governed by the rules and regulations governing the procedure in respect to applications under Section 4-II-(d) of the Bituminous Coal Act of 1937.

Similarly, any code member or Consumers Counsel Division may file a petition requesting appropriate relief on behalf of any consumer or retail dealer, who in the absence of established minimum f. o. b. mine prices and by virtue of some future development would have customarily purchased coal moving by river at such prices and under such conditions that the coal moving by river would not be competitive with coal of comparable quality moving by rail, truck or ex-lake dock, or would have regularly purchased coal moving by river at a savings over available prices of comparable coal moving by rail, truck or ex-lake dock. Such future development may pertain to the location of the plant or facilities of the consumer or retail dealer, the cost of river transportation or other similar matters.

Any State or political subdivision of a State, which is a consumer of ex-river

coal, may, on its own behalf, file petitions such as those which a code member or the Consumers' Counsel Division may file, as above provided.

(2) Prices for shipments by river (free alongside) for all uses except railroad locomotive fuel and for delivery into all market areas.

The prices in columns 1 to 6 apply only to "Domestic Coal" as defined in §329.1, from mines.

Transportation charges. In all cases of free alongside delivery, as hereinbefore defined, there shall be added to the f. o. b. mine price not less than a reasonable charge for rail, truck, river or other transportation and handling to the point at which the purchaser takes possession of the coal. The reasonableness of the charge at any given time shall be determined in light of the charges then currently quoted or used by competing river transporters and others rendering similar services.

(c) **Ex-river deliveries.**—(1) **F. O. B. mine prices.** When coal is sold for ex-river delivery, whether the sale is made f. o. b. mine or f. o. b. destination or at some intermediate point, the minimum f. o. b. mine price of the size and quality of coal reloaded at the river terminals shall be such that the price at destination, including the rail, truck, river and other transportation and terminal and dock charges or expenses, shall be not less than the minimum price for the same size and quality of coal f. o. b. the originating mine for the destination market area plus the actual all-rail freight rate from the particular mine to the destination.

(2) **Delivery costs.** Producers or distributors shall promptly submit to the Coal Division such data and information as will establish that the coal sold ex-river was sold on a basis whereby it would be delivered at the destination at an amount not less than the sum of the f. o. b. mine price for the same size and quality of coal destined to the same market area and the actual all-rail freight rate from the particular mine to the destination.

(3) **Price exceptions for retail dealers.**—(i) **F. O. B. mine prices.** All sales to retail dealers having facilities as described under Item 1-(c) of Special River Price Instructions but who are located within the Cincinnati, Louisville, Evansville, Memphis, Chicago or Minneapolis-St. Paul areas as herein described shall be made on the basis of an f. o. b. mine price plus the all-rail freight rate to the destination the same as herein de-

scribed for ex-river movement except that not more than the following deductions in cents per net ton may be made from the f. o. b. mine price in order that such coal may deliver in barges alongside such retail dealers' barge unloading facilities at delivered prices less than the all-rail delivered price by the amount of these deductions:

Size Groups 1 to 8, inclusive. Deduct 60 cents per ton.
Size Groups 9 to 29, inclusive. Deduct 20 cents per ton.

(ii) **Base freight rates.** In determining the base delivered price from which these deductions may be made, the published actual freight rate from the originating mine to the destination shall be used.

(iii) **Description of Retail Dealer Areas.** The following are descriptions of the areas to which prices for retail dealers, as referred to in Ex-River Deliveries, Item 3, are applicable:

Cincinnati area. Both banks of the Ohio River from a point at and on the opposite bank of the River from Silver Grove, Kentucky, downstream to and including a point at and on the opposite bank of the River from Columbia Park, Ohio.

Both banks of the Licking River from a point at and on the opposite bank of the River from DeCoursey, Kentucky, downstream to the confluence of the Licking and Ohio Rivers.

Louisville area. Both banks of the Ohio River from a point at and on the opposite bank of the River from Utica, Indiana, downstream to and including

a point at and on the opposite bank of the River from Locust Point, Indiana.

Evansville area. Both banks of the Ohio River from a point at the confluence of the Green and Ohio Rivers and on the opposite bank of the Ohio River from this point downstream to a point at the confluence of Carpentier Creek and the Ohio River and on the opposite bank of the Ohio River from this point.

Memphis area. Both banks of the Mississippi River from a point 10 miles upstream from the northerly limits of the City of Memphis on the water front to a point 10 miles downstream from the southerly limits of the City of Memphis on the water front, including a similar distance on the opposite bank of the River.

Both banks of the Wolf River from the head of navigation downstream to its confluence with the Mississippi River.

Chicago area. Both banks of the Des Plaines River and the Chicago Sanitary and Ship Canal from a point at and on the opposite side of the Canal and River from Lockport, Illinois, upstream to and including all navigable points connected with the Chicago Sanitary and Ship Canal within Cook and Will Counties Illinois and Lake County Indiana including the Lake Michigan Harbor.

Minneapolis-St. Paul area. Both banks of the Mississippi River from a point at the confluence of the St. Croix and Mississippi Rivers and on the opposite bank of the Mississippi River from this point upstream to a point at and on the opposite bank of the River from Anoka, Minnesota.

SUBPART B—TRUCK SHIPMENTS

§ 329.21 **Price instructions and exceptions.**—(a) **Price instructions.** (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to Section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to Section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona fide and legitimate farmers' co-operative organizations.

(3) Size designations listed herein are predicated on the use of round hole screens unless otherwise specified. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for equivalent sizes produced by use of round hole screens. The District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion, will determine the appropriate size designations of the coal produced.

(4) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(5) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directed paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(b) *Price exceptions.* (1) Minimum prices for any sale of coal, which under Section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by Section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal in Size Group Nos. 1 to 12, inclusive, and Nos. 17 to 20, inclusive, is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

When coal in Size Group Nos. 13 to 16, inclusive, and Nos. 21 to 29, inclusive, is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton, provided, however, that such increase shall apply only during the period April 1 to November 15, inclusive, in each year.

§ 329.22 Description of size groups

SIZE DIMENSIONS

LUMP COALS

Size group	Designation	Predominant sizes	Maximum	Minimum
1	Lump	5", 6", 7"	No limit	Larger than 4"
2	Lump	4"	Not exceeding 4"	Larger than 3"
3	Lump	3"	Not exceeding 3"	Larger than 2"
4	Lump	2"	Not exceeding 2"	Larger than 1½"
5	Lump	1½"	Not exceeding 1½"	Smaller than 1½"

DOUBLE SCREENED COALS—WASHED OR UNWASHED

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
1	Egg	6 x 5, 7 x 5, 8 x 6	No limit	5"	No limit	Larger than 4"
2	Egg	6 x 4, 7 x 4	No limit	4"	4"	Larger than 3"
3	Egg	6 x 3, 7 x 3, 8 x 3	No limit	3"	3"	Larger than 2"
4	Egg	5 x 2, 6 x 2, 7 x 2	No limit	Larger than 4"	2"	Larger than 1½"
5	Egg	3 x 2, 4 x 2	4"	Larger than 2"	2"	Larger than 1½"
6	Egg	3 x 1½, 6 x 1½	No limit	Larger than 2"	1½"	Smaller than 1½"
7	Stove	2 x 1½	2"	Larger than 1½"	Smaller than 2"	Larger than ¾"

MINE RUN AND RESULTANTS

Size group	Designation	Description
7	Mine Run Modified Mine Run Resultants	Straight Mine Run; no fines removed. Mine Run, modified by the removal of any intermediate size or sizes; no fines removed. All resultants larger than 2"; no fines removed.

RAW DOUBLE SCREENED NUT COALS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
9	Nut	2 x ¾	2"	Larger than 1½"	¾"	Larger than 10 Mesh or ¾"
10	Nut	1½ x ¾	1½"	Larger than ¾"	Smaller than 1½"	Larger than ¾"
11	Nut	1½ x ¾	1½"	Larger than ¾"	¾"	Larger than 10 Mesh or ¾"
12	Nut	¾ x ¾	¾"	Larger than 10 Mesh or ¾"	Smaller than ¾"	Larger than 10 Mesh or ¾"

RAW SCREENINGS

Size group	Designation	Predominant sizes	Top Size		Bottom Size
			Maximum	Minimum	
13	Screenings	2 x 0	2"	Larger than 1½"	No fines removed.
14	Screenings	1½ x 0	1½"	Larger than ¾"	No fines removed.
15	Carbon	¾ x 0	¾"	Larger than 10 Mesh or ¾"	No fines removed.
16	Dust	10 Mesh x 0	10 Mesh or ¾"	Smaller than 10 Mesh or ¾"	No fines removed.

WASHED OR AIR CLEANED DOUBLE SCREENED NUT COALS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
17	Nut	2 x ¾	2"	Larger than 1½"	¾"	Larger than 10 Mesh or ¾"
18	Nut	1½ x ¾	1½"	Larger than ¾"	Smaller than 1½"	Larger than ¾"
19	Nut	1½ x ¾	1½"	Larger than ¾"	¾"	Larger than 10 Mesh or ¾"
20	Nut	¾ x ¾	¾"	Larger than 10 Mesh or ¾"	Smaller than ¾"	Larger than 10 Mesh or ¾"
21	Nut or Dedusted Washed Screenings	2" x 10 Mesh	2"	Larger than 1½"	10 Mesh or ¾"	Larger than one millimeter.
22	Nut or Dedusted Washed Screenings	1½" x 10 Mesh	1½"	Larger than ¾"	10 Mesh or ¾"	Larger than one millimeter.

§ 329.22 *Description of size groups—Continued*

WASHED OR AIR CLEANED SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size
			Maximum	Minimum	
23	Screenings.....	2 x 0.....	2".....	Larger than 1½".....	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.
24	Screenings.....	1½ x 0.....	1½".....	Larger than ¾".....	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.
25	Carbon.....	¾ x 0.....	¾".....	Smaller than ¾".....	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.

DRY DEDUSTED SCREENINGS

26	Screenings.....	2 x 0.....	2".....	Larger than 1 1/2".....	Fines are the resultant coal which passes through a dedusting screen with openings not larger than 3/8". Not more than 50 percent of 3/8" minus shall be removed, except that there shall be no limit to the percent of fines removed through the use of standard dedusters equipped with screens with openings smaller than 8 mesh.
27	Screenings.....	1 1/2 x 0.....	1 1/2".....	Larger than 3/8".....	Fines are the resultant coal which passes through a dedusting screen with openings not larger than 3/8". Not more than 50 percent of 3/8" minus shall be removed, except that there shall be no limit to the percent of fines removed through the use of standard dedusters equipped with screens with openings smaller than 8 mesh.

Size group	Designation	Predominant size	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
28	Carbon.....	$\frac{3}{8}$ " x 10 Mesh	$\frac{3}{8}$ ".....	Smaller than $\frac{3}{8}$ "	Smaller than 8 Mesh	Larger than 2 Mesh
29	Carbon.....	$\frac{3}{4}$ " x 0.....	$\frac{3}{8}$ ".....	Smaller than $\frac{3}{8}$ "	28 Mesh.....	Smaller than 2 Mesh

§ 329.23 Table showing principal sizes included in each size group.

1. Lump: $4\frac{1}{4}''$, $5''$, $6''$, $7''$, $8''$, $9''$, $10''$.
1. Egg: $4\frac{1}{4}''$ x $5''$, $4\frac{1}{4}''$ x $5\frac{1}{2}''$, $4\frac{1}{4}''$ x $8''$, $4\frac{1}{2}''$ x $5''$, $4\frac{1}{2}''$ x $5\frac{1}{2}''$, $4\frac{1}{2}''$ x $8''$, $5''$ x $5\frac{1}{2}''$, $5''$ x $6''$, $5''$ x $7''$, $5''$ x $8''$, $6''$ x $7''$, $6''$ x $8''$.
2. Lump: $3\frac{1}{4}''$, $3\frac{1}{2}''$, $3\frac{3}{4}''$, $4''$.
2. Egg: $3\frac{1}{4}''$ x $4''$, $3\frac{1}{4}''$ x $4\frac{1}{4}''$, $4\frac{1}{4}''$ x $8''$, $3\frac{1}{2}''$ x $4''$, $3\frac{1}{2}''$ x $4\frac{1}{4}''$, $3\frac{1}{2}''$ x $8''$, $4''$ x $4\frac{1}{4}''$, $4''$ x $4\frac{1}{2}''$, $4''$ x $5''$, $4''$ x $6''$, $4''$ x $7''$, $4''$ x $8''$.
3. Lump: $2\frac{1}{4}''$, $2\frac{1}{2}''$, $2\frac{3}{4}''$, $3''$.
3. Egg: $2\frac{1}{4}''$ x $3''$, $2\frac{1}{4}''$ x $3\frac{1}{4}''$, $2\frac{1}{2}''$ x $3''$, $2\frac{1}{2}''$ x $4\frac{1}{4}''$, $3''$ x $3\frac{1}{4}''$, $3''$ x $3\frac{1}{2}''$, $3''$ x $4''$, $3''$ x $5''$, $3''$ x $6''$, $3''$ x $7''$.
4. Lump: $1\frac{3}{4}''$, $2''$.
4. Egg: $1\frac{3}{4}''$ x $4\frac{1}{4}''$, $1\frac{3}{4}''$ x $4\frac{1}{2}''$, $1\frac{3}{4}''$ x $5''$, $1\frac{3}{4}''$ x $7''$, $2''$ x $4\frac{1}{4}''$, $2''$ x $4\frac{1}{2}''$, $2''$ x $5''$, $2''$ x $6''$, $2''$ x $7''$, $2''$ x $8''$.
5. Egg: $1\frac{5}{8}''$ x $2\frac{1}{8}''$, $1\frac{5}{8}''$ x $3''$, $1\frac{5}{8}''$ x $4''$, $1\frac{3}{4}''$ x $2\frac{1}{8}''$, $1\frac{3}{4}''$ x $3''$, $1\frac{3}{4}''$ x $4''$, $2''$ x $2\frac{1}{8}''$, $2''$ x $2\frac{1}{4}''$, $2''$ x $2\frac{1}{2}''$, $2''$ x $3''$, $2''$ x $3\frac{1}{2}''$, $2''$ x $4''$.
6. Lump: $\frac{7}{8}''$, $\frac{1}{4}''$, $\frac{1}{2}''$, $1''$, $1\frac{1}{4}''$, $1\frac{1}{2}''$.
6. Egg: $\frac{7}{8}''$ x $2\frac{1}{8}''$, $\frac{7}{8}''$ x $3''$, $\frac{7}{8}''$ x $6''$, $\frac{1}{2}''$ x $8''$, $\frac{1}{4}''$ x $2\frac{1}{8}''$, $\frac{1}{4}''$ x $3''$, $\frac{1}{4}''$ x $6''$, $\frac{1}{4}''$ x $8''$, $\frac{1}{2}''$ x $2\frac{1}{8}''$, $\frac{1}{2}''$ x $3''$, $\frac{1}{2}''$ x $6''$, $\frac{1}{2}''$ x $8''$, $1''$ x $2\frac{1}{8}''$, $1''$ x $3''$, $1''$ x $6''$, $1''$ x $8''$, $1\frac{1}{4}''$ x $2\frac{1}{8}''$, $1\frac{1}{4}''$ x $3''$, $1\frac{1}{4}''$ x $6''$, $1\frac{1}{4}''$ x $8''$, $1\frac{1}{2}''$ x $2\frac{1}{8}''$, $1\frac{1}{2}''$ x $3''$, $1\frac{1}{2}''$ x $6''$, $1\frac{1}{2}''$ x $8''$.
7. Straight or modified mine run and resultants: $2\frac{1}{8}''$ x 0 , $2\frac{1}{2}''$ x 0 , $3''$ x 0 , $4''$ x 0 , $5''$ x 0 , $6''$ x 0 , $7''$ x 0 , $8''$ x 0 .
8. #2 Nut: $1\frac{7}{8}''$ x $1\frac{1}{8}''$, $1\frac{7}{8}''$ x $1\frac{3}{4}''$, $1\frac{7}{8}''$ x $2''$, $\frac{1}{2}''$ x $1\frac{7}{8}''$, $\frac{1}{2}''$ x $1\frac{3}{4}''$, $\frac{1}{2}''$ x $2''$, $\frac{3}{4}''$ x $1\frac{7}{8}''$, $\frac{3}{4}''$ x $1\frac{3}{4}''$, $\frac{3}{4}''$ x $2''$, $1''$ x $1\frac{7}{8}''$, $1''$ x $1\frac{3}{4}''$, $1''$ x $2''$, $1\frac{1}{4}''$ x $1\frac{7}{8}''$, $1\frac{1}{4}''$ x $1\frac{3}{4}''$, $1\frac{1}{4}''$ x $2''$, $1\frac{1}{2}''$ x $1\frac{7}{8}''$, $1\frac{1}{2}''$ x $1\frac{3}{4}''$, $1\frac{1}{2}''$ x $2''$, $1\frac{7}{8}''$ x $2''$.
9. Nut: 8 Mesh x $1\frac{1}{8}''$, 8 Mesh x $1\frac{3}{4}''$, 8 Mesh x $2''$, $\frac{1}{8}''$ x $1\frac{1}{8}''$, $\frac{1}{8}''$ x $1\frac{3}{4}''$, $\frac{1}{8}''$ x $2''$, $\frac{1}{4}''$ x $1\frac{1}{8}''$, $\frac{1}{4}''$ x $1\frac{3}{4}''$, $\frac{1}{4}''$ x $2''$, $\frac{1}{2}''$ x $1\frac{1}{8}''$, $\frac{1}{2}''$ x $1\frac{3}{4}''$, $\frac{1}{2}''$ x $2''$, $1\frac{1}{8}''$ x $1\frac{1}{8}''$, $1\frac{1}{8}''$ x $1\frac{3}{4}''$, $1\frac{1}{8}''$ x $2''$, $\frac{3}{8}''$ x $1\frac{1}{8}''$, $\frac{3}{8}''$ x $1\frac{3}{4}''$, $\frac{3}{8}''$ x $2''$.
10. Nut—Raw: $1\frac{1}{8}''$ x $\frac{7}{8}''$, $1\frac{1}{8}''$ x $1''$, $1\frac{1}{8}''$ x $1\frac{1}{4}''$, $1\frac{1}{8}''$ x $1\frac{1}{2}''$, $\frac{1}{2}''$ x $\frac{7}{8}''$, $\frac{1}{2}''$ x $1''$, $\frac{1}{2}''$ x $1\frac{1}{4}''$, $\frac{1}{2}''$ x $1\frac{1}{2}''$, $\frac{3}{4}''$ x $\frac{7}{8}''$, $\frac{3}{4}''$ x $1''$, $\frac{3}{4}''$ x $1\frac{1}{4}''$, $\frac{3}{4}''$ x $1\frac{1}{2}''$, $\frac{7}{8}''$ x $1''$, $\frac{7}{8}''$ x $1\frac{1}{4}''$, $\frac{7}{8}''$ x $1\frac{1}{2}''$, $1''$ x $1\frac{1}{4}''$, $1''$ x $1\frac{1}{2}''$, $1\frac{1}{4}''$ x $1\frac{1}{2}''$.
11. § 330.5 Description of size groups—Continued

WASHED OR AIR CLEANED SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size
			Maximum	Minimum	
23	Screenings	2" x 0	2"	Larger than 1½"	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.
24	Screenings	1½" x 0	1½"	Larger than ¾"	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.
25	Carbon	¾" x 0	¾"	Smaller than ¾"	Water Cleaned Coal: One millimeter or equivalent thereof. Air Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10 mesh screen.

DAY DEDUSTED SCREENINGS

26	Screenings	2" x 0	2"	Larger than 1½"	Fines are the resultant coal which passes through a dedusting screen with openings not larger than ½". Not more than 50 percent of ¾" minus shall be removed, except that there shall be no limit to the percent of fines removed through the use of standard dedusters equipped with screens with openings smaller than 8 mesh.
27	Screenings	1½" x 0	1½"	Larger than ¾"	Fines are the resultant coal which passes through a dedusting screen with openings not larger than ¾". Not more than 50 percent of ¾" minus shall be removed, except that there shall be no limit to the percent of fines removed through the use of standard dedusters equipped with screens with openings smaller than 8 mesh.

Size group	Designation	Predominant sizes	Top size		Bottom size
			Maximum	Minimum	
28	10 Mesh Sinker	¾" x 10 Mesh	¾"	Smaller than ¾"	Smaller than 8 Mesh.
29	Carbon	¾" x 28 Mesh	¾"	Smaller than ¾"	Larger than 28 Mesh. Smaller than 28 Mesh.

§ 330.5 Description of size groups—Continued

RAW DOUBLE SCREENED NUT COALS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
9	Nut	2" x ¾"	2"	Larger than 1½"	¾"	Larger than 10 Mesh or ¾"
10	Nut	1½" x ¾"	1½"	Larger than ¾"	Smaller than 1½"	Larger than ¾"
11	Nut	1½" x ¾"	1½"	Larger than ¾"	¾"	Larger than 10 Mesh or ¾"
12	Nut	¾" x ¾"	¾"	Larger than 10 Mesh or ¾"	Smaller than ¾"	Larger than 10 Mesh or ¾"

RAW SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
13	Screenings	2" x 0	2"	Larger than 1½"	No fines removed.	No fines removed.
14	Screenings	1½" x 0	1½"	Larger than ¾"	No fines removed.	No fines removed.
15	Carbon	¾" x 0	¾"	Smaller than ¾"	No fines removed.	No fines removed.
16	Dust	10 Mesh or ¾"	10 Mesh or ¾"	Smaller than 10 Mesh or ¾"	No fines removed.	No fines removed.

WASHED OR AIR CLEANED DOUBLE SCREENED NUT COALS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
17	Nut	2" x ¾"	2"	Larger than 1½"	¾"	Larger than 10 Mesh or ¾"
18	Nut	1½" x ¾"	1½"	Larger than ¾"	Smaller than 1½"	Larger than ¾"
19	Nut	1½" x ¾"	1½"	Larger than ¾"	¾"	Larger than 10 Mesh or ¾"
20	Nut	¾" x ¾"	¾"	Larger than 10 Mesh or ¾"	Smaller than ¾"	Larger than 10 Mesh or ¾"
21	Nut or Dedusted Washed Screenings	2" x 10 Mesh	2"	Larger than 1½"	10 Mesh or ¾"	Larger than one millimeter.
22	Nut or Dedusted Washed Screenings	1½" x 10 Mesh	1½"	Larger than ¾"	10 Mesh or ¾"	Larger than one millimeter.

§ 330.6 Table showing principal sizes included in each size group.

1. Lump: 4 1/4", 5", 6", 7", 8", 9", 10".
1. Egg: 4 1/4" x 5", 4 1/4" x 5 1/2", 4 1/4" x 8", 4 1/2" x 5", 4 1/2" x 5 1/2", 4 1/2" x 8", 5" x 5 1/2", 5" x 6", 5" x 7", 5" x 8", 6" x 7", 6" x 8".

2. Lump: 3 1/4", 3 1/2", 3 3/4", 4".
2. Egg: 3 1/4" x 4", 3 1/4" x 4 1/4", 3 1/4" x 8", 3 1/2" x 4", 3 1/2" x 4 1/4", 3 1/2" x 8", 4" x 4 1/4", 4" x 4 1/2", 4" x 5", 4" x 6", 4" x 7", 4" x 8".

3. Lump: 2 1/4", 2 1/2", 2 3/4", 3".
3. Egg: 2 1/4" x 3", 2 1/4" x 3 1/4", 2 1/2" x 3", 2 1/2" x 3 1/4", 3" x 3 1/4", 3" x 3 1/2", 3" x 4", 3" x 5", 3" x 6", 3" x 7".

4. Lump: 1 3/4", 2".
4. Egg: 1 3/4" x 4 1/4", 1 3/4" x 4 1/2", 1 3/4" x 5", 1 3/4" x 7", 2" x 4 1/4", 2" x 4 1/2", 2" x 5", 2" x 6", 2" x 7", 2" x 8".

5. Egg: 1 5/8" x 2 1/8", 1 5/8" x 3", 1 5/8" x 4", 1 3/4" x 2 1/8", 1 3/4" x 3", 1 3/4" x 4", 2" x 2 1/8", 2" x 2 1/4", 2" x 2 1/2", 2" x 3", 2" x 3 1/2", 2" x 4".

6. Lump: 1/8", 1/4", 1/2", 1", 1 1/4", 1 1/2".
6. Egg: 1/8" x 2 1/8", 1/8" x 3", 1/8" x 6", 1/8" x 8", 1/4" x 2 1/8", 1/4" x 3", 1/4" x 6", 1/4" x 8", 1/2" x 2 1/8", 1/2" x 3", 1/2" x 6", 1/2" x 8", 1" x 2 1/8", 1" x 2", 1" x 6", 1" x 8", 1 1/4" x 2 1/8", 1 1/4" x 3", 1 1/4" x 6", 1 1/4" x 8", 1 1/2" x 2 1/8", 1 1/2" x 3", 1 1/2" x 4", 1 1/2" x 5", 1 1/2" x 6", 1 1/2" x 7", 1 1/2" x 8".

7. Straight or modified mine run and resultants: 2 1/8" x 0, 2 1/2" x 0, 3" x 0, 4" x 0, 5" x 0, 6" x 0, 7" x 0, 8" x 0.

8. #2 Nut: 1 1/8" x 1 1/8", 1 1/8" x 1 3/4", 1 1/8" x 2", 1 1/2" x 1 1/8", 1 1/2" x 1 3/4", 1 1/2" x 2", 3/4" x 1 1/8", 3/4" x 1 3/4", 3/4" x 2", 1" x 1 1/8", 1" x 1 3/4", 1" x 2", 1 1/4" x 1 1/8", 1 1/4" x 1 3/4", 1 1/4" x 2", 1 1/2" x 1 1/8", 1 1/2" x 1 3/4", 1 1/2" x 2", 1 7/8" x 2".

Bottom or smaller size

any inconsistency between such special notes, instructions and exceptions, and the general price instructions and price exceptions, the special notes, instructions and exceptions shall control.

(11) In the event any price instruction, price exception, or any other provision of this schedule is inconsistent with any provision of any order, rule or regulation of the National Bituminous Coal Commission or the Bituminous Coal Division issued prior to the effective date of this schedule, the price instructions and exceptions and provisions of this schedule shall control.

(b) *Price exceptions.* (1) Minimum prices for any sale of coal which, under Section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by Section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) *Calcium chloride and oil treated*

coal. When coal in Size Group Nos. 1 to 12, inclusive, and Nos. 17 to 20, inclusive, is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

When coal in Size Group Nos. 13 to 16, inclusive, and Nos. 21 to 29, inclusive, is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton, provided, however, that such increase shall apply only during the period April 1 to November 15, inclusive, in each year.

NOTE.—This price exception does not apply to coals in Size Group Nos. 1 to 8, inclusive, produced at the mines listed herein as Mine Index Nos. 118, 119, 120 and 121, when impurities have been removed from such coals by the use of calcium chloride solution and when such coals have been subjected to a rinsing spray unless such coals are treated afterwards with dust-allaying or anti-freezing agents.

(3) Prices listed herein for coal other than railroad locomotive fuel shall be increased 10 cents per net ton when such coal is loaded in stock or box cars and is shipped into any Market Area except Market Area Nos. 43, 44, 45, 200 or 201.

(4) Prices listed herein for coal other than railroad locomotive fuel shall be increased 15 cents per net ton when two or more sizes of such coal are loaded in the same car and shipped into any Market Area except Market Area Nos. 43, 44, 45, 200 or 201.

(5) The minimum price on Size Group No. 15 coal produced at the mines listed herein as Mine Index Nos. 118, 119, 120 and 121 for shipment only to West Frankfort, Illinois, shall be 60 cents per net ton.

(6) Minimum prices provided herein for rail shipments are based upon code members using shipping points, for loading coal for delivery to purchasers, as

specified at pages 8 to 11, inclusive, of this Schedule. In the event that a different shipping point is used, prices provided herein shall be increased or may be decreased by the amount necessary to deliver the coal at destination at exactly the same price as if the shipping point specified at pages 8 to 11 hereof had been used.

(7) When domestic coals in Size Group Nos. 1, 2, 3, 5 or 8 are shipped only to Retail Dealers during the months of May to August, inclusive, from Mines in Price Group Nos. 1, 2, 3, 4, 5, 6, 7, 8 and 11, the prices listed herein for such coals will be reduced as follows:

Size groups	May	June	July	August
1.....	50¢	35¢	20¢	10¢
2.....	40¢	30¢	20¢	10¢
3.....	40¢	30¢	20¢	10¢
5.....	20¢	15¢	10¢	5¢
8.....	20¢	15¢	10¢	5¢

Exception No. and Explanation

4. The following prices will apply on railroad locomotive fuel for the MK&T RR, the StL&SF Ry., the CRI&P Ry. (St. Louis Division), the Alton & Southern RR, the Terminal Railroad Association of St. Louis, the StL&SW Ry., and the Manufacturers Ry. from mines bearing reference to Exception No. 4:

Mine Run.....	\$1.80
6" x 1 1/4" Egg.....	1.85
2" Screenings or smaller.....	1.40

5. The price on 6" x 1 1/4" Egg Coal from this mine for locomotive use on the Alton RR is \$2.15 per ton.

6. The producer may absorb the actual division of the freight rate but not to exceed 43.6 cents per ton on railroad locomotive fuel for the M&STL RR.

7. The producer may absorb the actual division of the freight rate but not to exceed 22 cents per ton on railroad locomotive fuel for the TP&W RR.

8. The producer may absorb the actual division of the freight rate but not to exceed 48 cents per ton on railroad locomotive fuel for the C&NW Ry.

9. The following prices will apply on railroad locomotive fuel for the NYC System:

Mine Run.....	\$2.10
6" Mine Run.....	1.85
Nut (Top 3", Bottom 3/4").....	2.25
Screenings, 2" or less.....	1.70

Instruction No. E will not apply on the above prices.

10. The producer may absorb the actual switching charge but not to exceed 25 cents per ton on railroad locomotive fuel for the B&O RR, IC RR, and the Illinois Terminal Railroad.

11. The producer may absorb the actual switching charge but not to exceed \$8.25 per car on railroad locomotive fuel for the Alton RR.

12. The producer may absorb the actual switching charge but not to exceed \$8.80 per car on railroad locomotive fuel for the Wabash Railway.

13. The producer may absorb the actual switching charge but not to exceed \$6.20 per car on railroad locomotive fuel for the CB&Q RR.

14. The producer may absorb the actual division of the freight rate but not to exceed 30 cents per ton on railroad locomotive fuel for the C&NW Ry.

15. The producer may absorb the actual switching charge but not to exceed 14 cents per ton with a minimum of \$2.97 and a maximum of \$5.45 per car on railroad locomotive fuel for the Missouri and Illinois Railroad.

16. The producer may absorb the actual switching charge but not to exceed \$5.95 per car on railroad locomotive fuel for the Southern Railway.

17. The producer may absorb the actual division of the freight rate but not to exceed 25 cents per ton on railroad locomotive fuel for the C&NW Ry.

18. The producer may absorb the actual switching charge but not to exceed \$6.05 per car on railroad locomotive fuel for the MOPAC RR.

19. The producer may absorb the actual division of the freight rate but not to exceed 12 cents per ton on railroad locomotive fuel for the C&NW Ry.

20. The following prices apply on railroad locomotive fuel for the NYC System:

Mine run.....	\$1.85
Modified Egg.....	1.85

21. The producer may absorb the actual switching charge but not to exceed \$6.95 a car on railroad locomotive fuel for the M&STL RR.

22. The producer may absorb the actual switching charge of the G&GE RR but not to exceed 15 cents per ton on railroad locomotive fuel for the CB&Q RR.

23. The producer may absorb the actual switching charge but not to exceed 16 cents per ton on railroad locomotive fuel for the Illinois Terminal Railroad.

24. The producer may absorb the actual division of the freight rate but not to exceed 35 cents per ton on railroad locomotive fuel for the IC RR.

25. The producer may absorb the actual division of the freight rate but not to exceed 34 cents per ton on railroad locomotive fuel for the C&NW Ry.

26. The producer may absorb the actual division of the freight rate but not to exceed 22 cents per ton on railroad locomotive fuel for the Wabash Ry.

27. The producer may absorb the actual switching charge but not to exceed \$6.50 per car on railroad locomotive fuel for the IC RR.

28. The producer may absorb the actual switching charge but not to exceed 14 cents per ton with a minimum of \$2.97 and a maximum of \$5.45 per car on railroad locomotive fuel for the IC

RR, the Illinois Terminal RR, Wabash Ry, and Alton RR.

29. The producer may absorb the actual switching charge but not to exceed 14 cents per ton with a minimum of \$2.97 and a maximum of \$5.45 per car on railroad locomotive fuel for the Illinois Terminal RR, Wabash Ry, and the Alton RR.

30. The producer may absorb the actual switching charge but not to exceed 14.6 per ton on railroad locomotive fuel for the Alton RR.

31. The producer may absorb the actual division of the freight rate but not to exceed 22 cents per ton on railroad locomotive fuel for the Wabash Ry, and the IC RR.

32. The producer may absorb the actual division of the freight rate but not to exceed 15 cents per ton in lots of 100 cars, 20 cents per ton in lots of 30 to 99 cars; all movements in lots of less than 30 cars 37.2 cents per ton when consigned to Nelson, Illinois, and 38.1 cents per ton when consigned to Clinton, Iowa, for the C&NW RR.

33. The producer may absorb the actual division of the freight rate but not to exceed 22 cents per ton on railroad locomotive fuel for the Alton RR, the IC RR, the Wabash Ry, and the Illinois Terminal RR.

34. The producer may absorb the actual switching charge but not to exceed 14 cents per ton with a minimum of \$2.97 and a maximum of \$5.45 per car on railroad locomotive fuel for the Alton RR, the IC RR, the B&O RR, and the Illinois Terminal RR.

35. The producer may absorb up to a maximum of 25 cents per ton on railroad locomotive fuel, except screenings, for the AT&SF Railroad.

EXCEPTION NO. 36

Exception No.	On railroad locomotive coal for—	Delivered price			F. o. b. mine price to be obtained by deducting from the delivered price the actual divisions of the rate subject to the following maximum absorption
		MR	Mod. MR	Segs.	
36	Alton RR.....	195	200	140	42.6 cents per ton.

16"x1 1/4" Egg.

Exception No. and Explanation

37. The price on railroad locomotive fuel for railroads shown below shall be based on the freight rate or the division of the freight rate from Belleville, Illinois. The f. o. b. mine price is to be increased the difference between the Belleville, Illinois, rate or division of the rate and the actual transportation charge applicable from Mine Index No. 96.

MK&T RR.
StL&SF Ry.
CRI&P Ry (St. Louis Division).
Alton & Southern RR.

Terminal RR Assn. of St. Louis.
StL&SW Ry.
Manufacturers Ry.

38. The delivered price on railroad locomotive fuel when delivered to the following railroads at St. Louis, Missouri, shall be based on the freight rate or the division of the freight rate from Belleville, Illinois. The f. o. b. mine price is to be increased the difference between the Belleville rate or the division of the rate and the actual freight rate or division applicable from mines bearing ref-

erence to Exception No. 38 when routed by the Illinois Terminal RR:

MK&T RR.
StL&SF Ry.
CRI&P Ry (St. Louis Division).
Terminal RR Assn. of St. Louis.
StL&SW Ry.
Manufacturers Ry.

39. The producer may absorb the actual division of the rate, but not to exceed 42.5 cents per ton on railroad locomotive coal for the C&NW Ry.

40. The producer may absorb the actual division of the rate, but not to exceed 37.2 cents per ton on railroad locomotive fuel for the Wabash Railway.

41. The producer may absorb the actual switching charge or division of the rate, but not to exceed \$6.05 per car on railroad locomotive fuel for the CB&Q and C&NW Railroads.

42. Producer may absorb the actual division of the rate, but not to exceed 40 cents per ton on railroad locomotive fuel for the M&I Railroad.

43. Producer may absorb the actual division of the rate, but not to exceed 28.8 cents per ton on railroad locomotive fuel for the CRI&P Railway.

44. Producer may absorb the actual division of the rate, but not to exceed 27.8 cents per ton on railroad locomotive fuel for the CRI&P Railway.

45. Prices on railroad locomotive fuel for the M&I Railroad is \$1.85 for 6" x 1 1/4" Egg Coal; \$1.80 for Mine Run and \$1.40 for Screenings, out of which the producer may absorb the actual switching charge but not to exceed 14 cents per ton with a minimum of \$2.97 and a maximum of \$5.45 per car.

46. Producer may absorb the actual division of the rate, but not to exceed 45.8 cents per ton on locomotive fuel orders for the CRI&P Railway when billed to Silvis, Illinois, and 56 cents per ton on locomotive fuel orders for the CRI&P Railway when billed to Bureau, Illinois.

47. Producer may absorb the actual division of the rate, but not to exceed 50 cents per ton on railroad locomotive fuel for the CRI&P Railway when billed to Silvis, Illinois, and 58.6 cents per ton on railroad locomotive fuel orders billed to Bureau, Illinois.

48. Producer may absorb the actual division of the rate, but not to exceed 45 cents per ton on railroad locomotive fuel orders for the CRI&P Railway.

49. Producer may absorb the actual division of the rate on locomotive fuel, except screenings, for the AT&SF Ry., but not to exceed 27.9 cents per ton when billed to Galesburg, Illinois, 26 cents per ton when billed to Fort Madison, Iowa, 39 cents per ton when billed to Streator, Illinois, and 34.8 cents per ton when billed to Chillicothe, Illinois.

Producer may absorb the actual division of the rate on screenings for locomotive use for the AT&SF Ry., but not to exceed 7.9 cents per ton when billed to Galesburg, Illinois, 6 cents per ton when billed to Fort Madison, Iowa, 19 cents per ton when billed

to Streator, Illinois, and 14.8 cents per ton when billed to Chillicothe, Illinois.

50. Producer may absorb 36 cents per ton on railroad locomotive fuel orders for the Alton Railroad on Mine Run or Modified Mine Run.

51. Prices for railway locomotive fuel for the Missouri Pacific Railway will be as follows:

Mine Run	\$1.60
6" x 1 1/4" Egg	1.65
Screenings	1.40

52. Producer may absorb the actual division of the rate, but not to exceed 11.5 cents per ton on locomotive fuel for the CRI&P Railway.

(b) *River (free alongside deliveries) and ex-river shipments*—(1) *Instructions and exceptions*—(i) *Definition of "River (free alongside deliveries)"*. "River (free alongside deliveries)", as used in this Schedule, means:

(a) Deliveries in barges or other floating equipment alongside river docks or other barge unloading facilities to purchasers for consumption in their plants which adjoin such docks or other barge unloading facilities;

(b) Deliveries in barges or other floating equipment to purchasers for consumption on floating equipment operated by them;

(c) Deliveries in barges or other floating equipment alongside river docks or other barge unloading facilities to those retail dealers (not located in the Chicago or Minneapolis-St. Paul areas as herein defined), for resale at retail, who operate such river docks or other barge unloading facilities and whose yard and storage facilities (in which the coal purchased free alongside is stored, when it is stored) adjoin such river docks or other barge unloading facilities; and

(d) Deliveries to any person at the mine or at a point nearer the mine than the river docks or other barge unloading facilities for transportation in barges or other floating equipment to a purchaser who takes free alongside delivery, within the meaning of Item 1 (a) or Item 1 (c) above.

(ii) *Definition of "Ex-river deliveries"*. "Ex-river deliveries", as used in this Schedule, means deliveries involving river transportation other than those defined in Item 1, above.

(iii) *Special Cases*. (a) Any code member or Consumers' Counsel Division, on behalf of any consumer or retail dealer (which consumer or retail dealer falls within the definition of a purchaser of ex-river coal, as defined in Item 2 above, but who (a) in the past customarily purchased coal moving by river at such prices and under such conditions that the coal moving by river was not competitive with coal of comparable quality moving by rail, truck or ex-lake dock, or (b) in the past regularly purchased coal moving by river at a savings over available prices for comparable coal moving by rail, truck or ex-lake dock), may file a petition requesting that such consumer or retail dealer be enabled to purchase at the minimum f. o. b. mine prices for free

alongside delivery; and the Division shall, after hearing and upon satisfactory showing, authorize the sale of river coal to such purchaser by one or more code members at minimum f. o. b. mine prices for free alongside delivery, subject to such conditions as may be necessary to accomplish the objectives of the Act and to maintain the prescribed minimum prices. Any such petition filed by a code member or Consumers' Counsel Division, as herein provided, and the procedure subsequent thereto shall be governed by the rules and regulations governing the procedure in respect to applications under Section 4-II-(d) of the Bituminous Coal Act of 1937.

Similarly, any code member or Consumers' Counsel Division may file a petition requesting appropriate relief on behalf of any consumer or retail dealer, who in the absence of established minimum f. o. b. mine prices and by virtue of some future development would have customarily purchased coal moving by river at such prices and under such conditions that the coal moving by river would not be competitive with coal of comparable quality moving by rail, truck or ex-lake dock, or would have regularly purchased coal moving by river at a savings over available prices of comparable coal moving by rail, truck or ex-lake dock. Such future development may pertain to the location of the plant or facilities of the consumer or retail dealer, the cost of river transportation or other similar matters.

Any State or political subdivision of a State, which is a consumer of ex-river coal, may, on its own behalf, file petitions such as those which a code member or the Consumers' Counsel Division may file, as above provided.

(b) Any code member producer may sell coal at the free alongside prices to the following consumers, subject to the limitations indicated:

The Minnesota State Prison (for consumption in its operation at Bayport, Minnesota).

Marquette Cement Manufacturing Company (for consumption at its plant located in the vicinity of Oglesby, Illinois).

Ex-River Deliveries

(iv) *F. O. B. mine prices*. When coal is sold for ex-river delivery, whether the sale is made f. o. b. mine or f. o. b. destination or at some intermediate point, the minimum f. o. b. mine price of the size and quality of coal reloaded at the river terminals shall be such that the price at destination, including the rail, truck, river and other transportation and terminal and dock charges or expenses, shall be not less than the minimum price for the same size and quality of coal f. o. b. the originating mine for the destination market area plus the actual all-rail freight rate from the particular mine to the destination.

(v) *Delivery costs*. Producers or distributors shall promptly submit to the Coal Division such data and information

as will establish that the coal sold ex-river was sold on a basis whereby it would be delivered at the destination at an amount not less than the sum of the f. o. b. mine price for the same size and quality of coal destined to the same market area and the actual all-rail freight rate from the particular mine to the destination.

(vi) *Price exceptions for retail dealers*—(a) *F. O. B. mine prices*. All sales to retail dealers having facilities as described under Item 1 (c) of Special River Price Instructions but who are located within the Chicago or Minneapolis-St. Paul areas as herein described shall be made on the basis of an f. o. b. mine price

plus the all-rail freight rate to the destination the same as herein described for ex-river movement except that not more than the following deductions in cents per net ton may be made from the f. o. b. mine price in order that such coal may deliver in barges alongside such retail dealers' barge unloading facilities at delivered prices less than the all-rail delivered price by the amount of these deductions:

To Chicago Area. Size groups 1 to 8, inclusive, deduct 60¢ per ton; size groups 9 to 29, inclusive, deduct 20¢ per ton.

To Minneapolis-St. Paul Area. Size groups 1 to 8, inclusive, deduct 60¢ per

ton; size groups 9 to 29, inclusive, deduct 20¢ per ton.

(b) *Base freight rates*. In determining the base delivered price from which these deductions may be made, the published actual freight rate from the originating mine to the destination shall be used.

(c) *Description of retail dealer areas*. The following are descriptions of the areas to which prices for retail dealers, as referred to in Item 3 of Ex-River Deliveries, are applicable:

Chicago Area. Both banks of the Des Plaines River and the Chicago Sanitary and Ship Canal from a point at and on

the opposite side of the Canal and River from Lockport, Illinois, upstream to and including all navigable points connected with the Chicago Sanitary and Ship Canal within Cook and Will Counties, Illinois, and Lake County, Indiana, including the Lake Michigan Harbor.

Minneapolis-St. Paul Area. Both banks of the Mississippi River from a point at the confluence of the St. Croix and Mississippi River and on the opposite bank of the Mississippi River from the point upstream to a point at and on the opposite bank of the River from Anoka, Minnesota.

(2) Prices for river (free alongside) to all market areas (except for railroad locomotive fuel).

NOTE.—In all cases alongside delivery as defined in Special River Price Instructions and Exceptions there shall be added to the f. o. b. mine prices shown on this table not less than a reasonable charge for rail, truck, river or other transportation and handling to the point at which the purchaser takes possession of the coal. The reasonableness of the charge at any given time shall be determined in light of the charges then currently quoted or used by competing river transporters and others rendering similar services.

SUBPART B—TRUCK SHIPMENTS

§ 330.21 *Price instructions and exceptions.* (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to Section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to Section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona-fide and legitimate farmers' cooperative organizations.

(3) Size designations listed herein are predicated on the use of round hole screens unless otherwise specified. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for equivalent sizes produced by use of round hole

screens. The District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion, will determine the appropriate size designation of the coal produced.

(4) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next largest size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(5) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of

of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities

ties are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(b) *Price exceptions.* (1) Minimum prices for any sale of coal, which under Section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by Section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal in Size Groups Nos. 1 to 12 inclusive, and 17 to 20 inclusive, is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

§ 330.23 Description of size groups—Continued

RAW DOUBLE SCREENED NUT COALS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
9	Nut	2" x 3/4"	2"	Larger than 1 1/2"	3/8"	Larger than mesh or 3/32"
10	Nut	1 1/2" x 3/4"	1 1/2"	Larger than 3/4"	Smaller than 1 1/2"	Larger than mesh or 3/32"
11	Nut	1 1/2" x 3/8"	1 1/2"	Larger than 3/4"	Smaller than 3/8"	Larger than mesh or 3/32"
12	Nut	3/4" x 3/8"	3/4"	Larger than 10 mesh or 3/32"	Smaller than 3/4"	Larger than mesh or 3/32"

RAW SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
13	Screenings	2" x 0	2"	Larger than 1 1/2"	No fines removed.	
14	Screenings	1 1/2" x 0	1 1/2"	Larger than 3/4"	No fines removed.	
15	Carbon	3/4" x 0	3/4"	Larger than 10 mesh or 3/32"	No fines removed.	
16	Dust	10 mesh x 0	10 mesh or 3/32"	Smaller than 10 mesh or 3/32"	No fines removed.	

WASHED OR AIR CLEANED DOUBLE SCREENED NUT COALS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
17	Nut	2" x 3/8"	2"	Larger than 1 1/2"	3/8"	Larger than 10 mesh or 3/32"
18	Nut	1 1/2" x 3/8"	1 1/2"	Larger than 3/4"	Smaller than 1 1/2"	Larger than 3/8"
19	Nut	1 1/2" x 3/4"	1 1/2"	Larger than 3/4"	Smaller than 3/8"	Larger than 10 mesh or 3/32"
20	Nut	3/4" x 3/8"	3/4"	Larger than 10 mesh or 3/32"	Smaller than 3/4"	Larger than 10 mesh or 3/32"
21	Nut or dedusted washed screenings	2" x 10 Mesh	2"	Larger than 1 1/2"	10 mesh or 3/32"	Larger than one millimeter.
22	Nut or dedusted washed screenings	1 1/2" x 10 Mesh	1 1/2"	Larger than 3/4"	10 mesh or 3/32"	Larger than one millimeter.

WASHED OR AIR CLEANED SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
23	Screenings	2" x 0	2"	Larger than 1 1/2"		Water cleaned coal: One millimeter or equivalent thereof. Air cleaned coal: Shall contain at least 10 per cent of fines that will pass through a 10 mesh screen.
24	Screenings	1 1/2" x 0	1 1/2"	Larger than 3/4"		Water cleaned coal: One millimeter or equivalent thereof. Air cleaned coal: Shall contain at least 10 per cent of fines that will pass through a 10 mesh screen.
25	Carbon	3/4" x 0	3/4"	Smaller than 3/4"		Water cleaned coal: One millimeter or equivalent thereof. Air cleaned coal: Shall contain at least 10 per cent of fines that will pass through a 10 mesh screen.

When coal in Size Groups Nos. 13 to 16 inclusive, and 21 to 29 inclusive, is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton; *Provided, however*, That such increase shall apply only during the period April 1 to November 15 inclusive in each year.

3. Henry, Knox, Stark, Mercer, Rock Island and Warren.

4. Fulton, Logan, Peoria and Tazewell.

5. Adams, Brown, Cass, Greene, Jersey, Hancock, Macoupin, McDonough, Pike, Schuyler and Scott.

6. Christian, Macon, Menard, Montgomery, Morgan, Sangamon and Shelby.

7. Crawford, Edgar, Jasper, Richland, Vermilion and Wabash.

8. Madison, Monroe and St. Clair.

9. Bond, Clinton, Jackson, Jefferson, Marion, Perry, Randolph and Washington.

10. Franklin, Gallatin, Johnson, Pope, Saline, White and Williamson.

§ 330.23 Description of size groups

SIZE DIMENSIONS

LUMP COALS

Size group	Designation	Predominant sizes	Top size (maximum)		Bottom size (minimum)	
			Maximum	Minimum	Maximum	Minimum
1	Lump	6" x 6", 7" x 7"	No limit.		Larger than 4"	
2	Lump	4" x 4"	Not exceeding 4"		Larger than 3"	
3	Lump	3" x 3"	Not exceeding 3"		Larger than 2"	
4	Lump	2" x 2"	Not exceeding 2"		Larger than 1 1/2"	
6	Lump	1 1/2" x 1 1/2"	Not exceeding 1 1/2"		Smaller than 1 1/2"	

DOUBLE SCREENED COALS—WASHED OR UNWASHED

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
1	Egg	6" x 6", 7" x 5"	No limit.	5"	No limit.	Larger than 4"
2	Egg	6" x 4", 7" x 4"	No limit.	4"	3"	Larger than 3"
3	Egg	6" x 3", 7" x 3"	No limit.	3"	3"	Larger than 2"
4	Egg	5" x 3", 6" x 2"	No limit.	Larger than 4"	2"	Larger than 1 1/2"
5	Egg	3" x 2", 4" x 2"	4"	Larger than 2"	2"	Larger than 1 1/2"
6	Egg	3" x 1 1/2", 6" x 1 1/2"	No limit.	Larger than 2"	1 1/2"	Smaller than 1 1/2"
8	Stove	2" x 1 1/2"	2"	Larger than 1 1/2"	Smaller than 2"	Larger than 3/8"

MINE RUN AND RESULTANTS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
7	Mine run					Straight mine run: no fines removed. Modified mine run: modified by the removal of any intermediate size or sizes; no fines removed. Resultants: All resultants larger than 2"; no fines removed.

& 330.23 *Description of size groups—Continued*

DRY DEDUSTED SCREENINGS

Size Group	Designation	Predomi- nant sizes	Top size		Bottom size
			Maxi- mum	Mini- mum	
20	Screenings.....	2" x 0.....	9"	Larger than 1½"	Fines are the resultant coal which passes through a dedusting screen with openings not larger than ¾". Not more than 50 per cent of ¾" minus shall be removed, except that there shall be no limit to the per cent of fines removed through the use of standard dedusters equipped with screens with openings smaller than 8 mesh.
22	Screenings.....	1½" x 0.....	1½"	Larger than ¾"	Fines are the resultant coal which passes through a dedusting screen with openings not larger than ¾". Not more than 50 per cent of ¾" minus shall be removed, except that there shall be no limit to the per cent of fines removed through the use of standard dedusters equipped with screens with openings smaller than 8 mesh.

Size Group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
28	10 mesh stoker.....	$\frac{1}{8}$ " x 10 mesh.	$\frac{1}{4}$ "	Smaller than $\frac{1}{8}$ " ..	Smaller than 8 mesh.	Larger than 28 mesh.
20	Carbon.....	$\frac{1}{8}$ " x 28 mesh.	$\frac{1}{8}$ "	Smaller than $\frac{3}{8}$ " ..	28 mesh	Smaller than 28 mesh.

1" x 1½", 1¼" x 1½".

PART 331—MINIMUM PRICE SCHEDULE,

DISTRICT No. 11

CONTENTS

Sec. 331.8	General prices.
331.9	Adjustments in f. o. b. mine prices.
331.10	Special prices: Railroad locomotive fuel.
SUBPART B—TRUCK SHIPMENTS	
331.21	Price instructions and exceptions.
331.22	Description of size groups.
331.23	Table showing principal sizes included in each size group.
331.24	General prices.
SUBPART A—ALL SHIPMENTS EXCEPT TRUCK	
\$ 331.1 Price instructions and exceptions—(a) Price instructions. (1) Prices	

Sec. 331.1	Price instructions and exceptions.
331.2	Description of size groups.
331.3	Table showing principal sizes in each size group.
331.4	Key sizes and commercial size groups.
331.5	Alphabetical list of code members.
331.6	Numerical list of code members.
331.7	Identification of symbols for subdistricts and veins of coal.

listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to Section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to Section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona fide and legitimate farmers' cooperative organizations.

(3) In the sale of coal to destinations outside the boundary of the United States, prices listed herein are for payment in United States funds.

(4) Size designations listed herein are for round hole screens. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for the equivalent sizes produced by use of round hole screens, as determined by the test prescribed by A.S.T.M. designation D-410-38. If the percentage of oversize exceeds five per cent, the price for the next larger size group classification for that mine shall apply.

(5) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(6) The prices listed herein for shipment via rail transportation apply also for shipment via all other methods of transportation except truck or wagon.

(7) The Market Areas to which reference is made in this schedule are those which are numerically designated and geographically described in the "Schedule of Common Consuming Market Areas, Established in Connection with the Effective Minimum Prices, Pursuant to Section 4, Part II of the Bituminous Coal Act of 1937."

(8) Railway Locomotive Fuel prices listed herein shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

(9) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation

facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(10) Various parts of this schedule contain special notes, instructions and exceptions, applicable to specified situations. Such special notes, instructions and exceptions are in addition to the general price instructions and price exceptions listed herein. In the event of any inconsistency between such special notes, instructions and exceptions, and the general price instructions and price exceptions, the special notes, instructions and exceptions shall control.

(11) In the event any price instruction, price exception, or any other provision of this schedule is inconsistent with any provision of any order, rule or

regulation of the National Bituminous Coal Commission or the Bituminous Coal Division issued prior to the effective date of this schedule, the price instructions and exceptions and provisions of this schedule shall control.

(b) *Price exceptions.* (1) Minimum prices for any sale of coal, which under Section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by Section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal in Size Group Nos. 1 to 12, inclusive, and Nos. 17 to 20, inclusive, is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

When coal in Size Group Nos. 13 to 16, inclusive, and Nos. 21 to 34, inclusive, is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton; *Provided, however,* That such increase shall apply only during the period April 1 to November 15, inclusive, in each year.

(3) For the mines with Index Numbers 5, 48, and 49, the prices listed herein for Size Group No. 14, shall apply to air-cleaned Breaker Screenings included in Size Group No. 34.

(4) For the mines with Index Numbers 3, 21, and 22, the prices listed herein for Size Group No. 14 shall apply to coals included in Size Group No. 27.

§ 331.2 Description of size groups

SIZE DIMENSIONS

LUMP COALS

Size group	Designation	Predominant sizes	Maximum	Minimum
1	Lump	5", 6", 7"	No limit	Larger than 4"
2	Lump	4"	Not exceeding 4"	Larger than 3"
3	Lump	3"	Not exceeding 3"	Larger than 2"
4	Lump	2"	Not exceeding 2"	Larger than 1½"
6	Lump	1½"	Not exceeding 1½"	Smaller than 1½"

DOUBLE SCREENED COALS—WASHED OR UNWASHED

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
1	Egg	6 x 5, 7 x 5, 8 x 6	No limit	5"	No limit	Larger than 4"
2	Egg	6 x 4, 7 x 4	No limit	4"	4"	Larger than 3"
3	Egg	6 x 3, 7 x 3, 8 x 3	No limit	3"	3"	Larger than 2"
4	Egg	5 x 2, 6 x 2, 7 x 2	No limit	Larger than 4"	2"	Larger than 1½"
5	Egg	3 x 2, 4 x 2	4"	Larger than 2"	2"	Larger than 1½"
6	Egg	3 x 1½, 6 x 1½	No limit	Larger than 2"	1½"	Smaller than 1½"
8	Stove	2 x 1½	2"	Larger than 1½"	Smaller than 2"	Larger than ¾"

MINE RUN AND RESULTANTS

Size group	Designation	Description
7	Mine run	Straight mine run; no fines removed.
	Modified mine run	Mine run, modified by the removal of any intermediate size or sizes; no fines removed.
	Resultants	All resultants larger than 2"; no fines removed.

§ 331.2 Description of size groups—Continued
RAW DOUBLE SCREENED NUT COALS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
9	Nut	2x3	2"	Larger than 1 1/2"	3/8"	Larger than 10 Mesh or 3/32"
10	Nut	1 1/2 x 3 1/4	1 1/2"	Larger than 3/4"	Smaller than 1 1/2"	Larger than 3/8"
11	Nut	1 1/4 x 3	1 1/4"	Larger than 3/4"	3/8"	Larger than 10 Mesh or 3/32"
12	Nut	3/4 x	3/4"	Larger than 10 Mesh or 3/32"	Smaller than 3/4"	Larger than 10 Mesh or 3/32"

This size group will also include 1 1/2" x 3/4" air cleaned Breaker Nut.

RAW SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
13	Screenings	2x0	2"	Larger than 1 1/2"	No fines removed.	
14	Screenings	1 1/2 x 0	1 1/2"	Larger than 3/4"	No fines removed.	
15	Carbon	3/8 x 0	3/8"	Larger than 10 Mesh or 3/32"	No fines removed.	
16	Dust	10 Mesh x 0	10 Mesh or 3/32"	Smaller than 10 Mesh or 3/32"	No fines removed.	

WASHED OR AIR CLEANED DOUBLE SCREENED NUT COALS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
17	Nut	2x3	2"	Larger than 1 1/2"	3/8"	Larger than 10 Mesh or 3/32"
18	Nut	1 1/2 x 3 1/4	1 1/2"	Larger than 3/4"	Smaller than 1 1/2"	Larger than 3/8"
19	Nut	1 1/4 x 3	1 1/4"	Larger than 3/4"	3/8"	Larger than 10 Mesh or 3/32"
20	Nut	3/4 x 3	3/4"	Larger than 10 Mesh or 3/32"	Smaller than 3/4"	Larger than 10 Mesh or 3/32"
21	Nut or Dedusted Washed Screenings	9" x 10 Mesh	2"	Larger than 1 1/2"	10 Mesh or 3/4"	Larger than one millimeter.
22	Nut or Dedusted Washed Screenings	1 1/2" x 10 Mesh	1 1/2"	Larger than 3/4"	10 Mesh or 3/4"	Larger than one millimeter.

WASHED OR AIR CLEANED SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
23	Screenings	2x0	2"	Larger than 1 1/2"	Water Cleaned Coal.—One millimeter or equivalent thereof. Air Cleaned Coal.—Shall contain at least 10 per cent of fines that will pass through a 10 mesh screen.	
24	Screenings	1 1/2 x 0	1 1/2"	Larger than 3/4"	Water Cleaned Coal.—One millimeter or equivalent thereof. Air Cleaned Coal.—Shall contain at least 10 per cent of fines that will pass through a 10 mesh screen.	

§ 331.2 Description of size groups—Continued
WASHED OR AIR CLEANED SCREENINGS—Continued

Size group	Designation	Predominant sizes	Top size		Bottom size
			Maximum	Minimum	
25	Carbon	3/8 x 0	3/8"	Smaller than 3/8"	Water Cleaned Coal.—One millimeter or equivalent thereof. Air Cleaned Coal.—Shall contain at least 10 per cent of fines that will pass through a 10 mesh screen.

DRY DEDUSTED SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size
			Maximum	Minimum	
26	Screenings	2x0	2"	Larger than 1 1/2"	Fines are the resultant coal which passes through a dedusting screen with openings not larger than 3/8". Not more than 50 per cent of 3/8" minus shall be removed, except that there shall be no limit to the per cent of fines removed through the use of standard dedusters equipped with screens with openings smaller than 8 mesh.
27	Screenings	1 1/2 x 0	1 1/2"	Larger than 3/4"	Fines are the resultant coal which passes through a dedusting screen with openings not larger than 3/8". Not more than 50 per cent of 3/8" minus shall be removed, except that there shall be no limit to the per cent of fines removed through the use of standard dedusters equipped with screens with openings smaller than 8 mesh.

WATER DEDUSTED SCREENINGS

Size group	Designation	Predominant sizes	Top size		Bottom size
			Maximum	Minimum	
28	Carbon	3/8" x 10 mesh	3/8"	Smaller than 3/8"	Smaller than 8 mesh.
29	Carbon	3/8 x 0	3/8"	Smaller than 3/8"	Larger than 28 mesh.
30	Screenings	2x0	2"	Larger than 1 1/2"	Smaller than 10 Mesh or 3/32"
31	Screenings	1 1/2 x 0	1 1/2"	Larger than 3/4"	Smaller than 10 Mesh or 3/32"
32	Carbon	3/8 x 0	3/8"	Smaller than 3/8"	Smaller than 10 Mesh or 3/32"

SUB-STANDARD COALS

Size group	Designation	Description
33	Raw Breaker Screenings	Raw screenings made by crushing or breaking, in a Bradford or similar type of breaker, only such coal as is rejected from the picking tables in the hand-picking process of cleaning coarse sizes.
34	Washed Breaker Screenings	Washed or air-cleaned breaker screenings made by crushing or breaking, in a Bradford or similar type of breaker, only such coal as is rejected from the picking tables, in the hand-picking process of cleaning coarse sizes, and which are subsequently washed or air-cleaned.

§ 331.3 Table showing principal sizes included in each size group

1. Lump: 4 1/4", 5", 6", 7", 8", 9", 10".
1. Egg: 4 1/4" x 5", 4 1/4" x 5 1/2", 4 1/4" x 8", 4 1/2" x 5", 4 1/2" x 5 1/2", 4 1/2" x 8", 5" x 5 1/2", 5" x 6", 5" x 7", 5" x 8", 6" x 7", 6" x 8".
2. Lump: 3 1/4", 3 1/2", 3 3/4", 4".
2. Egg: 3 1/4" x 4", 3 1/4" x 4 1/4", 3 1/4" x 8", 3 1/2" x 4", 3 1/2" x 4 1/4", 3 1/2" x 8", 4" x 4 1/4", 4" x 4 1/2", 4" x 5", 4" x 6", 4" x 7", 4" x 8".
3. Lump: 2 1/4", 2 1/2", 2 3/4", 3".
3. Egg: 2 1/4" x 3", 2 1/4" x 3 1/4", 2 1/2" x 3", 2 1/2" x 3 1/4", 3" x 3 1/4", 3" x 3 1/2", 3" x 4", 3" x 5", 3" x 6", 3" x 7".
4. Lump: 1 3/4", 2".
4. Egg: 1 3/4" x 4 1/4", 1 3/4" x 4 1/2", 1 3/4" x 5", 1 3/4" x 7", 2" x 4 1/4", 2" x 4 1/2", 2" x 5", 2" x 6", 2" x 7", 2" x 8".
5. Egg: 1 5/8" x 2 1/8", 1 5/8" x 3", 1 5/8" x 4", 1 3/4" x 2 1/8", 1 3/4" x 3", 1 3/4" x 4", 2" x 2 1/8", 2" x 2 1/2", 2" x 2 3/4", 2" x 3", 2" x 3 1/2", 2" x 4".
6. Lump: 1 1/2", 1 1/4", 1 1/2", 1", 1 1/4", 1 1/2".
6. Egg: 1 1/2" x 2 1/8", 1 1/2" x 3", 1 1/2" x 6", 1 1/2" x 8", 1 1/4" x 2 1/8", 1 1/4" x 3", 1 1/4" x 6", 1 1/4" x 8", 1 1/2" x 2 1/8", 1 1/2" x 3", 1 1/2" x 6", 1 1/2" x 8", 1" x 2 1/8", 1" x 3", 1" x 6", 1" x 8", 1 1/4" x 2 1/8", 1 1/4" x 3", 1 1/4" x 6", 1 1/4" x 8", 1 1/2" x 3", 1 1/2" x 4", 1 1/2" x 5", 1 1/2" x 6", 1 1/2" x 7", 1 1/2" x 8".
7. Straight or Modified Mine Run and Resultants: 2 1/8" x 0, 2 1/2" x 0, 3" x 0, 4" x 0, 5" x 0, 6" x 0, 7" x 0, 8" x 0.
8. #2 Nut: 1 1/8" x 1 1/8", 1 1/8" x 1 3/4", 1 1/8" x 2", 1 1/2" x 1 1/8", 1 1/2" x 1 3/4", 1 1/2" x 2", 3/4" x 1 1/8", 3/4" x 1 3/4", 3/4" x 2", 1" x 1 1/8", 1" x 1 3/4", 1" x 2", 1 1/4" x 1 1/8", 1 1/4" x 1 3/4", 1 1/4" x 2", 1 1/2" x 1 1/8", 1 1/2" x 1 3/4", 1 1/2" x 2", 1 5/8" x 2".
9. Nut: 8 Mesh x 1 1/8", 8 Mesh x 1 3/4", 8 Mesh x 2", 1 1/8" x 1 1/8", 1 1/8" x 1 3/4", 1 1/8" x 2", 1 1/4" x 1 1/8", 1 1/4" x 1 3/4", 1 1/4" x 2", 1 1/2" x 1 1/8", 1 1/2" x 1 3/4", 1 1/2" x 2", 1 5/8" x 2", 3/8" x 1 1/8", 3/8" x 1 3/4", 3/8" x 2".
10. Nut—Raw: 1 1/8" x 7/8", 1 1/8" x 1", 1 1/8" x 1 1/4", 1 1/8" x 1 1/2", 1 1/2" x 7/8", 1 1/2" x 1", 1 1/2" x 1 1/4", 1 1/2" x 1 1/2", 3/4" x 7/8", 3/4" x 1", 3/4" x 1 1/4", 3/4" x 1 1/2", 7/8" x 1", 7/8" x 1 1/4", 7/8" x 1 1/2", 1" x 1 1/4", 1" x 1 1/2", 1 1/4" x 1 1/2".
11. Nut—Raw: 8 Mesh x 7/8", 8 Mesh x 1", 8 Mesh x 1 1/4", 8 Mesh x 1 1/2", 1 1/8" x 7/8", 1 1/8" x 1", 1 1/8" x 1 1/4", 1 1/8" x 1 1/2", 1/4" x 7/8", 1/4" x 1", 1/4" x 1 1/4", 1/4" x 1 1/2", 1 1/2" x 7/8", 1 1/2" x 1", 1 1/2" x 1 1/4", 1 1/2" x 1 1/2", 3/8" x 7/8", 3/8" x 1", 3/8" x 1 1/4", 3/8" x 1 1/2".
12. Nut—Raw: 8 Mesh x 1/8", 8 Mesh x 1/4", 8 Mesh x 1/2", 8 Mesh x 3/4", 1 1/8" x 1/4", 1 1/8" x 3/8", 1 1/8" x 1/2", 1 1/8" x 3/4", 5/8" x 1/4", 5/8" x 3/8", 5/8" x 1/2", 5/8" x 3/4", 3/8" x 1/2", 3/8" x 5/8", 3/8" x 1 1/2", 3/8" x 5/8", 1/2" x 5/8".
13. Screenings Raw: 1 5/8" x 0, 1 3/4" x 0, 1 1/2" x 0, 2" x 0.
14. Screenings Raw: 1 1/2" x 0, 5/8" x 0, 3/4" x 0, 1" x 0, 1 1/4" x 0, 1 1/2" x 0.

15. Carbon—Raw: 8 Mesh x 0, 1/8" x 0, 1/4" x 0, 1/8" x 0, 3/8" x 0.

16. Dust—Raw: 10 Mesh or 3/2" x 0, 28 Mesh x 0.

17. Nut—Washed: 8 Mesh x 1 1/8", 8 Mesh x 1 3/4", 8 Mesh x 2", 1 1/8" x 1 1/8", 1 1/8" x 1 3/4", 1 1/8" x 2", 1 1/4" x 1 1/8", 1 1/4" x 1 3/4", 1 1/4" x 2", 1 1/2" x 1 1/8", 1 1/2" x 1 3/4", 1 1/2" x 2", 3/8" x 1 1/8", 3/8" x 1 3/4", 3/8" x 2".

18. Nut—Washed: 1 1/8" x 7/8", 1 1/8" x 1", 1 1/8" x 1 1/4", 1 1/8" x 1 1/2", 1 1/2" x 7/8", 1 1/2" x 1", 1 1/2" x 1 1/4", 1 1/2" x 1 1/2", 3/4" x 7/8", 3/4" x 1", 3/4" x 1 1/4", 3/4" x 1 1/2", 7/8" x 1", 7/8" x 1 1/4", 7/8" x 1 1/2", 1" x 1 1/4", 1" x 1 1/2", 1 1/4" x 1 1/2".

19. Nut—Washed: 8 Mesh x 7/8", 8 Mesh x 1", 8 Mesh x 1 1/4", 8 Mesh x 1 1/2", 1 1/8" x 7/8", 1 1/8" x 1", 1 1/8" x 1 1/4", 1 1/8" x 1 1/2", 1/4" x 7/8", 1/4" x 1", 1/4" x 1 1/4", 1/4" x 1 1/2", 1 1/2" x 7/8", 1 1/2" x 1", 1 1/2" x 1 1/4", 1 1/2" x 1 1/2".

20. Nut—Washed: 8 Mesh x 1/8", 8 Mesh x 1/4", 8 Mesh x 1/2", 8 Mesh x 3/4", 1 1/8" x 1/4", 1 1/8" x 3/8", 1 1/8" x 1/2", 1 1/8" x 3/4", 5/8" x 1/4", 5/8" x 3/8", 5/8" x 1/2", 5/8" x 3/4", 3/8" x 1/2", 3/8" x 5/8", 1/2" x 5/8".

21. Nut or Dedusted Washed Screenings: 1 5/8" x 10 Mesh, 1 3/4" x 10 Mesh, 1 1/8" x 10 Mesh, 2" x 10 Mesh, 1 5/8" x 24 Mesh, 1 3/4" x 24 Mesh, 1 1/8" x 24 Mesh, 2" x 24 Mesh.

22. Nut or Dedusted Washed Screenings: 3/8" x 10 Mesh, 1/2" x 10 Mesh, 5/8" x 10 Mesh, 3/4" x 10 Mesh, 1" x 10 Mesh, 1 1/2" x 10 Mesh, 3/8" x 24 Mesh, 1/2" x 24 Mesh, 5/8" x 24 Mesh, 3/4" x 24 Mesh, 1" x 24 Mesh, 1 1/4" x 24 Mesh, 1 1/2" x 24 Mesh.

23. Washed Screenings: 1 5/8" x (), 1 3/4" x (), 1 1/8" x (), 2" x ().

24. Washed Screenings: 1/2" x (), 5/8" x (), 3/4" x (), 1" x (), 1 1/4" x (), 1 1/2" x ().

25. Washed Screenings: 1/4" x (), 1 1/8" x (), 3/8" x ().

26. Dry Dedusted Screenings: 1 5/8" x (), 1 3/4" x (), 1 1/8" x (), 2" x ().

27. Dry Dedusted Screenings: 1/2" x (), 5/8" x (), 3/4" x (), 1" x (), 1 1/4" x (), 1 1/2" x ().

Coal Vein Symbol and Identification

- III. Third vein.
IV. Fourth vein.
V. Fifth vein.
VI. Sixth vein.
VII. Seventh vein.
B. Brazil Block vein.
C. Cannel vein.
M. Minshall vein.
SB. Semi-Brazil Block vein.

§ 331.7 Identification of symbols for sub-districts and veins of coal

- Subdistrict Symbol and Identification
BC. Brazil-Clinton district.
LS. Linton-Sullivan district.
PA. Princeton-Ayrshire district.
BO. Booneville district.
EV. Evansville district.

§ 331.10 Special prices: Railroad locomotive fuel—Continued
PRICES F. O. B. MINES FOR SHIPMENT TO RAILROADS, AS INDICATED, FOR LOCOMOTIVE FUEL ONLY

Mine Index Numbers	Size Dimensions	Name of Railroad	Prices f. o. b. Mine
36, 41, 92, 97	Mine Run 1	CGW Ry.	158
6, 7, 8, 11, 13, 14, 16, 22, 24, 28, 42, 54, 55, 56, 74, 75, 82, 83, 84, 86, 89, 90, 94, 95, 99	Screenings (any size up to 2")	CGW Ry.	89
1, 2, 3, 10, 19, 20, 21, 23, 26, 30, 32, 33, 35, 39, 40, 45, 49, 50, 51, 52, 53, 57, 58, 63, 65, 67, 68, 69, 70, 71, 72, 73, 78, 80, 91, 100, 101	Mine Run 1	MSP&SSM	186
	Screenings (any size up to 2")	MSP&SSM	175
5, 9, 31, 35, 36	Mine Run 1	MSP&SSM	150
47	Screenings (any size up to 2")	MSP&SSM	170
57, 58, 80, 81, 87, 88	Mine Run 1	MSP&SSM	125
	Screenings (any size up to 2")	MSP&SSM	123
36, 41, 92, 97	Mine Run 1	MSP&SSM	120
	Screenings (any size up to 2")	MSP&SSM	106
	Mine Run 1	MSP&SSM	146
	Screenings (any size up to 2")	MSP&SSM	100

¹ Sizes in Size Groups 1 to 8 inclusive may be applied, at the option of the code member, on orders for railroad locomotive fuel specifying Nat (3 x 5/16), Modified Mine Run, Mine Run, or Resultant Mine Run (9" x 0).
² Modified Mine Run shall contain 15 per cent, with a tolerance of 2 per cent up or down, of coal that will pass through screens with round hole openings 1 1/4" in diameter, or other shaped openings equivalent in area (1 1/4" Screens), and large lumps may also be broken down; or Modified Mine Run may be 6" x 1 1/4" Egg with 15 per cent, with a tolerance of 2 per cent up or down, of 1 1/4" Screens, as described above.
³ Sizes in Size Groups 8 to 34 inclusive, may be applied, at the option of the code member, on orders for railroad locomotive fuel specifying Screenings.

GENERAL NOTES

An additional charge of 15 cents per net ton shall be added to the prices listed for locomotive fuel when locomotives are coaled at mine tipples.
 The price of coal for shipment to any railroad other than those railroads specifically mentioned in this schedule shall be 185 per net ton f. o. b. mine for Mine Run coal, subject to the provision that code members may at their option apply sizes of coal in Size Groups 1 to 8 inclusive on orders for Mine Run.
 Any coal furnished to railroads for power plants, station heating or other uses shall be sold at prices listed on the price tables of this schedule applicable for all uses other than railroad locomotive fuel, except that mines located on the A. W. & W. Railway, with index numbers 5, 36, 41, 92, and 97, may reduce these prices 12 cents per net ton when for delivery to "off line" railroads, for this use, and mine with index number 11, located on the Indiana Railroad, may reduce these prices 10 cents per net ton when for delivery to "off line" railroads for this use.

¹ Includes the following railroads:
 Baltimore & Ohio Chicago Terminal Railroad.
 Belt Railway of Chicago.
 Chicago & Calumet River Railroad.
 Chicago & Western Indiana Railroad.
 Chicago Short Line Railway.
 Chicago Junction Railway.
 Chicago River & Indiana Railroad.
 Chicago, West Pullman & Southern Railroad.
 Illinois Northern Railroad.
 Indiana Harbor Belt Railroad.
 Manufacturers Junction Railway.
 Pullman Railroad.

¹ Sizes in Size Groups 1 to 8 inclusive may be applied, at the option of the code member, on orders for railroad locomotive fuel specifying Nat (3 x 5/16), Modified Mine Run, Mine Run, or Resultant Mine Run (9" x 0).
² Modified Mine Run shall contain 15 per cent, with a tolerance of 2 per cent up or down, of coal that will pass through screens with round hole openings 1 1/4" in diameter, or other shaped openings equivalent in area (1 1/4" Screens), and large lumps may also be broken down; or Modified Mine Run may be 6" x 1 1/4" Egg with 15 per cent, with a tolerance of 2 per cent up or down, of 1 1/4" Screens, as described above.

GENERAL NOTES

An additional charge of 15 cents per net ton shall be added to the prices listed for locomotive fuel when locomotives are coaled at mine tipples.

The price of coal for shipment to any railroad other than those railroads specifically mentioned in this schedule shall be 185 per net ton f. o. b. mine for Mine Run coal, subject to the provision that code members may at their option apply sizes of coal in Size Groups 1 to 8 inclusive on orders for Mine Run.
 Any coal furnished to railroads for power plants, station heating or other uses shall be sold at prices listed on the price tables of this schedule applicable for all uses other than railroad locomotive fuel, except that mines located on the A. W. & W. Railway, with index numbers 5, 36, 41, 92, and 97, may reduce these prices 12 cents per net ton when for delivery to "off line" railroads, for this use, and mine with index number 11, located on the Indiana Railroad, may reduce these prices 10 cents per net ton when for delivery to "off line" railroads for this use.

SUBPART B—TRUCK SHIPMENTS

§ 331.21 *Price instructions and exceptions*—(a) *Price instructions*. (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona-fide and legitimate farmers; cooperative organizations.

(3) Size designations listed herein are predicated on the use of round hole screens unless otherwise specified. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for equivalent sizes produced by use of round hole screens. The District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion, will determine the appropriate size designations of the coal produced.
 (4) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.
 If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.
 (5) No code member shall evade or violate any of the price provisions of the

Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(b) *Price exceptions*. (1) Minimum prices for any sale of coal, which under Section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by section 3 (a) of such Act,

§ 331.22 Description of size groups—Continued

RAW DOUBLE SCREENED NUT COALS

Size Group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
9...	Nut.....	2 x 3/4	2"	Larger than 1 1/2"	3/4"	Larger than 10 Mesh or 3/32"
10...	Nut.....	1 1/2 x 3/4	1 1/4"	Larger than 3/4"	Smaller than 1 1/2"	Larger than 10 Mesh or 3/32"
11...	Nut.....	1 1/2 x 3/4	1 1/4"	Larger than 3/4"	Smaller than 1 1/2"	Larger than 10 Mesh or 3/32"
12...	Nut.....	3/4 x 3/4	3/4"	Larger than 10 Mesh or 3/32"	Smaller than 3/4"	Larger than 10 Mesh or 3/32"

! This size group will also include 1 1/2 x 3/4 air cleaned Breaker Nut.

RAW SCREENINGS

Size Group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
13...	Screenings.....	2 x 0	2"	Larger than 1 1/2"	No fines removed.	No fines removed.
14...	Screenings.....	1 1/2 x 0	1 1/2"	Larger than 3/4"	No fines removed.	No fines removed.
15...	Carbon.....	3/4 x 0	3/4"	Larger than 10 Mesh or 3/32"	No fines removed.	No fines removed.
16...	Dust.....	10 Mesh x 0	10 Mesh or 3/32"	Smaller than 10 Mesh or 3/32"	No fines removed.	No fines removed.

WASHED OR AIR CLEANED DOUBLE SCREENED NUT COALS

Size Group	Designation	Predominant sizes	Top size		Bottom size	
			Maximum	Minimum	Maximum	Minimum
17...	Nut.....	2 x 3/4	2"	Larger than 1 1/2"	3/4"	Larger than 10 Mesh or 3/32"
18...	Nut.....	1 1/2 x 3/4	1 1/4"	Larger than 3/4"	Smaller than 1 1/2"	Larger than 10 Mesh or 3/32"
19...	Nut.....	1 1/2 x 3/4	1 1/4"	Larger than 3/4"	Smaller than 1 1/2"	Larger than 10 Mesh or 3/32"
20...	Nut.....	3/4 x 3/4	3/4"	Larger than 10 Mesh or 3/32"	Smaller than 3/4"	Larger than 10 Mesh or 3/32"
21...	Nut or dedusted washed screenings.	2" x 10 Mesh	2"	Larger than 1 1/2"	10 Mesh or 3/32"	Larger than one millimeter.
22...	Nut or dedusted washed screenings.	1 1/2" x 10 Mesh	1 1/2"	Larger than 3/4"	10 Mesh or 3/32"	Larger than one millimeter.

shall be one cent per net ton less than that otherwise applicable under this Schedule.

(2) When coal in Size Groups Nos. 1 to 12 inclusive, and 17 to 20 inclusive, is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton: *Provided*, however, That such increase shall apply only during the period April 1 to November 15 inclusive in each year.

§ 331.22 Description of size groups

SIZE DIMENSIONS

LUMP COALS

Size Group	Designation	Predominant sizes	Maximum		Minimum	
			Maximum	Minimum	Maximum	Minimum
1...	Lump.....	6" 6" 7"	No limit.	Larger than 4"	Larger than 4"	Larger than 4"
2...	Lump.....	4" 4" 4"	Not exceeding 4"	Larger than 3"	Larger than 3"	Larger than 3"
3...	Lump.....	3" 3" 3"	Not exceeding 3"	Larger than 2"	Larger than 2"	Larger than 2"
4...	Lump.....	2" 2" 2"	Not exceeding 2"	Larger than 1 1/2"	Larger than 1 1/2"	Larger than 1 1/2"
5...	Lump.....	1 1/2" 1 1/2" 1 1/2"	Not exceeding 1 1/2"	Smaller than 1 1/2"	Smaller than 1 1/2"	Smaller than 1 1/2"

PART 332—MINIMUM PRICE SCHEDULE,
DISTRICT No. 12

CONTENTS

SUBPART A—ALL SHIPMENTS EXCEPT TRUCK

Sec.

- 332.1 Price instructions and exceptions.
332.2 Alphabetical list of code members.
332.3 Size groups and specifications.
332.4 General prices.
332.5 Special prices: Railroad locomotive fuel.

SUBPART B—TRUCK SHIPMENTS

- 332.21 Price instructions and exceptions.
332.22 Identification of price groups.
332.23 Size groups and specifications.
332.24 General prices.

SUBPART A—ALL SHIPMENTS EXCEPT TRUCK

§ 332.1 *Price instructions and exceptions*—(a) *Price instructions*. (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona-fide and legitimate farmers' cooperative organizations.

(3) In the sale of coal to destinations outside the boundary of the United States, prices listed herein are for payment in United States funds.

(4) Size designations listed herein are for round hole screens or the following equivalents when bar screens are used:

- 8 inch round hole equals 5¼ inch bar.
6 inch round hole equals 4½ inch bar.
4 inch round hole equals 2¾ inch bar.
2 inch round hole equals 1¾ inch bar.
1½ inch round hole equals 1¼ inch bar.
1¼ inch round hole equals 7⁄8 inch bar.
¾ inch round hole equals ½ inch bar.

When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for equivalent sizes produced by use of round hole screens. The District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion, will determine the appropriate size designations of the coal produced.

(5) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(6) Prices listed herein for delivery by railroad apply whether such coal is

loaded into railroad cars directly from the mine tippie or from any point on the railway to which such coal may have been hauled.

(7) The Market Areas to which reference is made in this schedule are those which are numerically designated and geographically described in the "Schedule of Common Consuming Market Areas, Established in Connection with the Effective Minimum Prices, Pursuant to Section 4, Part II of the Bituminous Coal Act of 1937."

(8) Railway Locomotive Fuel prices listed herein shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

(9) The minimum price free on board transportation facilities for any size of coal included in the size groups listed in this schedule for any mine which has a rail rate that is higher than the base origin group rail rate to any destination listed on Pages 8 to 84, inclusive, shall be the minimum price free on board transportation facilities listed for the base mine origin group for the applicable size group less the difference between the rail rate for such mine to such destination and the base origin group rail rate to that destination.

The minimum price free on board transportation facilities for any size of coal included in the size groups listed in this schedule for any mine which has a rail rate that is lower than the base origin group rail rate to any destination listed on Pages 8 to 84, inclusive, shall be the minimum price free on board transportation facilities listed for the base mine origin group for the applicable size group plus the difference between the rail rate for such mine to such destination and the base origin group rail rate to that destination.

(10) If coal is delivered on or by railroad at any point in Iowa for which no price is listed herein, the price for such coal shall be the price applicable for delivery when shipped to the nearest destination for which a price is listed.

(11) No code number shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code number f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclu-

sive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(12) Various parts of this schedule contain special notes, instructions and exceptions, applicable to specified situations. Such special notes, instructions and exceptions are in addition to the general price instructions and price exceptions listed herein. In the event of any inconsistency between such special notes, instructions and exceptions, and the general price instructions and price exceptions, the special notes, instructions and exceptions shall control.

(13) In the event any price instruction, price exception, or any other provision of this schedule is inconsistent with any provision of any order, rule or regulation of the National Bituminous Coal Commission or the Bituminous Coal Division issued prior to the effective date of this schedule, the price instructions and exceptions and provisions of this schedule shall control.

(b) *Price exceptions*. (1) Minimum prices for any sale of coal which, under section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal is subjected to any chemical, oil or waxing process, or otherwise specially treated, the prices listed in this schedule for such coal shall be increased 10 cents per net ton for each such treatment.

(3) When coal is washed, the prices listed in this schedule for such coal shall be increased 20 cents per net ton. This increase to the prices listed herein shall be in addition to the increase provided in Item 2 of these Price Exceptions.

(4) Prices listed herein do not reflect railroad switching charges. When switching charges exist, prices listed herein shall be increased by the amount of such charges.

(5) Prices listed herein shall be reduced 25 cents per net ton for coal which is of subquality or inherently inferior to the coal as priced herein, provided the District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion determines that such coal is of subquality or inherently inferior. All orders, acknowledgments and invoices shall contain a complete description of such subquality or inherently inferior coal.

§ 332.3 Size groups and specifications for delivery by railroad.

No. 1. Chunk: All Lump coal larger than 2" — Includes 2½", 3", 4", and 6" Lump; All double screened coal with a bottom size larger than 2" — Includes 8" x 4", 6" x 4", and 6" x 3".

No. 2. Lump 2": All double screened coal with a top size larger than 2" and a bottom size 2" or smaller — Includes 10" x 2", 10" x 1½", and 10" x 1¼".

No. 3. Egg or range: All double screened coal with a top size larger than 4" but not larger than 8", and a bottom size 2" or smaller — Includes 8" x 2" and 6" x 2".

No. 4. Small egg: All double screened coal with a top size larger than 2" but not larger than 4", and a bottom size 2" or smaller — Includes 4" x 2" and 3" x 1½".

No. 5. Mine run: Includes all coal as it comes from the mine, from which no portion thereof has been removed, and which has received no preparation or treatment.

No. 6. Nut: All double screened coal with a top size 2" and smaller, but larger than 1¼". All double screened coal with a top size 1¼" and smaller and a bottom size larger than 1½" but not larger than 1", — Includes 2" x 1¼" and 1¼" x ¾".

No. 7. Domestic stoker: All double screened coal with a top size not larger than 1¼" and a bottom size 1½" or smaller — Includes 1¼" x 1½".

No. 8. Screenings: Includes all uncrushed raw coal larger than 1½" x 0 but not larger than 2" x 0 from which no fines have been removed — Includes 2" x 0 and 1¼" x 0.

No. 9. Crushed industrial stoker: Includes all coal, the resultant of crushing mine run so that the largest sizes are capable of passing through a 2" round hole screen or its equivalent, and from which no fines have been removed.

No. 10. Carbon: 1½" x 0 — Includes all coal, the largest sizes of which are capable of passing through a 1½" round hole screen or its equivalent, and from which no fines have been removed.

The minimum price free on board transportation facilities at the mines, for shipment of any size of coal included in size groups 1, 2, 3 and 4 to each destination in Market Areas 47, 48, 49, 50, 52, 53 and 54, listed in the price schedule, shall be reduced ten cents per net ton.

The effect of this reduction in the minimum price is a reduction of ten cents per net ton in the delivered price listed in the price schedule for any size of coal included in size groups 1, 2, 3 and 4 to each destination in Market Areas 47, 48, 49, 50, 52, 53 and 54.

SUBPART B—TRUCK SHIPMENTS

§ 332.21 Price instructions and exceptions—(a) Price instructions. (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to Section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to Section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona-fide and legitimate farmers' cooperative organizations.

(3) Size designations listed herein are for round-hole screens or the following equivalents when bar screens are used:

8 inch round hole equals 5¼ inch bar.
6 inch round hole equals 4½ inch bar.
4 inch round hole equals 2¾ inch bar.
2 inch round hole equals 1¾ inch bar.
1½ inch round hole equals 1¼ inch bar.
1¼ inch round hole equals ¾ inch bar.
1½ inch round hole equals ¼ inch bar.

When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for equivalent sizes produced by use of round-hole screens. The District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion, will determine the appropriate size designations of the coal produced.

(4) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(5) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(b) *Price exceptions.* (1) Minimum prices for any sale of coal, which under Section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by Section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal is subjected to any chemical, oil or waxing process, or otherwise specially treated, the prices listed in this schedule for such coal shall be increased 10 cents per net ton for each such treatment.

(3) When coal is washed, the prices listed in this schedule for such coal shall be increased 20 cents per net ton. This increase to the prices listed herein shall be in addition to the increase provided in Item 2 of these Price Exceptions.

(4) Prices listed herein shall be reduced 25 cents per net ton for coal which is of sub-quality or inherently inferior to the coal as priced herein provided the District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion determines that such coal is of sub-quality or inherently inferior. All orders, acknowledgments and invoices shall contain a complete description of such sub-quality or inherently inferior coal.

(5) Coal which is trucked or hauled by a code member to a purchaser having privately owned or leased railway facilities shall be sold at not less than the es-

tablished minimum price at the point of delivery for all rail coal: *Provided*, That this Exception shall not be applicable to any such sale unless there shall be filed with the Statistical Bureau for District 12, within seven (7) days from the date of such sale, a copy of the invoice or sales slip signed by the purchaser of such coal, acknowledging delivery thereof.

§ 332.23 Size groups and specifications

No. 1. Chunk: All Lump coal larger than 2"—Includes 2½", 3", 4", and 6" Lump; all double screened coal with a

bottom size larger than 2"—Includes 8" x 4", 6" x 4", and 6" x 3".

No. 2. Lump: 2" and under—Includes ¾", 1", 1¼", 1½", 1⅝", and 2" Lump; all double screened coal with a top size larger than 8" and a bottom size 2" or smaller—Includes 10" x 2", 10" x 1½", and 10" x 1¼".

No. 3. Egg or range: All double screened coal with a top size larger than 4" but not larger than 8", and a bottom size 2" or smaller—Includes 8" x 2" and 6" x 2".

No. 4. Small egg: All double screened coal with a top size larger than 2" but not larger than 4", and a bottom size 2" or smaller—Includes 4" x 2" and 3" x 1½".

No. 5. Mine run: Includes all coal as it comes from the mine, from which no portion thereof has been removed, and which has received no preparation or treatment.

No. 6. Nut: All double screened coal with a top size 2" and smaller, but larger than 1¼"; all double screened coal with a top size 1¼" and smaller and a bottom size larger than ⅝" but not larger than 1"—Includes 2" x 1¼" and 1¼" x ¾".

No. 7. Domestic stoker: All double screened coal with a top size not larger than 1¼" and a bottom size ⅝" or smaller—Includes 1¼" x ⅝".

No. 8. Screenings: Includes all uncrushed raw coal larger than ⅝" x 0 but not larger than 2" x 0 from which no fines have been removed—Includes 2" x 0 and 1¼" x 0.

No. 9. Crushed Industrial Stoker: Includes all coal, the resultant of crushing mine run so that the largest sizes are capable of passing through a 2" round hole screen or its equivalent, and from which no fines have been removed.

No. 10. Carbon: ⅝" x 0—Includes all coal, the largest sizes of which are capable of passing through a ⅝" round hole screen or its equivalent, and from which no fines have been removed.

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

CONTENTS

SUBPART A—ALL SHIPMENTS FOR SUBDISTRICT NO. 1 EXCEPT TRUCK

- Sec.
333.1 Price instructions and exceptions.
333.2 Description of size groups.
333.3 Alphabetical list of code member.

- Sec.
333.4 Numerical list of code members.
333.5 Identification of subdistrict numbers.
333.6 General prices.
333.7 Special prices.
(a) Prices for shipment to all railroads and for exclusive use of railroads.
(b) Prices for shipment by railroad, applicable only for blacksmithing use.
(c) Prices for shipment by railroad, applicable to all coal sold for steamship vessel fuel.

SUBPART B—ALL SHIPMENTS FOR SUBDISTRICT NO. 3 EXCEPT TRUCK

- Sec.
333.21 Price instructions and exceptions.
333.22 Description of size groups.
333.23 Alphabetical list of code members.
333.24 General prices.
333.25 Special prices.
(a) Prices for shipment by railroad; applicable only for blacksmithing use.
(b) Prices for shipment to all railroads for locomotive fuel, station heating, power plants and other uses.

SUBPART C—TRUCK SHIPMENTS FOR SUBDISTRICTS 1 AND 2

- Sec.
333.31 Price instructions and exceptions.
333.32 Identification of subdistrict numbers.
333.33 Description of size groups.
333.34 General prices.

SUBPART D—TRUCK SHIPMENTS FOR SUBDISTRICTS 3 AND 4

- Sec.
333.41 Price instructions and exceptions.
333.42 Description of size groups.
333.43 General prices.

SUBPART A—ALL SHIPMENTS FOR SUBDISTRICT NO. 1 EXCEPT TRUCK

§ 333.1 Price instructions and exceptions—(a) Price instructions. (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona fide and legitimate farmers' cooperative organizations.

(3) In the sale of coal to destinations outside the boundary of the United States, prices listed herein are for payment in United States funds.

(4) Size designations listed herein are for round hole screens. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for the equivalent sizes produced by use of round hole screens, as determined by the test prescribed by A. S. T. M. designation D-410-38. If the percentage of oversize exceeds five per cent, the price for the next larger size group classification for that mine shall apply.

(5) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(6) The prices listed herein for shipment via rail transportation apply also for shipment via all other methods of transportation except truck or wagon.

(7) The Market Areas to which reference is made in this schedule are those

which are numerically designated and geographically described in the "Schedule of Common Consuming Market Areas, Established in Connection with the Effective Minimum Prices, Pursuant to section 4, Part II of the Bituminous Coal Act of 1937."

(8) Railway Locomotive Fuel prices listed herein shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

(9) The term "Industrial Coal" in this schedule means coal used in those industrial plants which buy and receive coal in carload quantities for their own use and which have physical railway or waterway connections for receiving coal.

(10) The term "Domestic Coal" in this schedule means coal other than that defined as "Industrial Coal."

(11) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(12) Various parts of this schedule contain special notes, instructions and exceptions, applicable to specified situations. Such special notes, instructions and exceptions are in addition to the general price instructions and price exceptions listed herein. In the event of any inconsistency between such special notes, instructions and exceptions, and the general price instructions and price exceptions, the special notes, instructions and exceptions shall control.

(13) In the event any price instruction, price exception, or any other provision of this schedule is inconsistent with any provision of any order, rule or regulation of the National Bituminous

Coal Commission or the Bituminous Coal Division issued prior to the effective date of this schedule, the price instructions and exceptions and provisions of this schedule shall control.

(b) Price exceptions. (1) Minimum prices for any sale of coal which, under section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 15 cents per net ton.

(3) An extra charge of \$2.50 per car must be made when more than one size of coal is shipped in the same railroad car.

(4) Any producer whose mine has a through haul rail rate to any destination that is higher than the contemporaneous through haul rail rate applicable to any other mine to such destination, may reduce the f. o. b. mine price shown herein, by the exact amount of such differential: Provided such reduction shall not exceed 25 cents per net ton. The 25 cent maximum absorption is also applicable to mines which ship by river so that the minimum prices for comparable coal

from such mines, within the limits of the 25 cent absorption, are equalized f. o. b. barge at the river tippie.

(5) Coking coal. For shipment only to destinations within the state of Alabama. Prices listed for all mines are based on the lowest line haul coking-in-transit or the lowest line haul furnace-raw-material rate, whichever properly applies. Mines having lower transportation charges must increase the prices listed herein for such mines by the amount of their transportation advantage, measured by that line haul rate which properly applies. Mines having higher than such base rates may absorb up to 25 cents per net ton of such disadvantage. There shall be no adjustment of furnace material transportation charges to equalize with coking-in-transit transportation charges.

(6) For the mine with Index No. 69, the price listed herein for Size Group No. 7 shall apply to 2" x 3/4" Nut coal.

(7) For the mines with Index Nos. 9, 11, and 17, the prices listed herein for Size Group No. 8 shall apply to coal with a top size not larger than 4".

(8) For the mine with Index No. 1, the prices listed herein for Size Groups 6 and 26 may be reduced 25 cents per ton when 2" x 1" Nut coal is applied.

(9) Seasonal discounts. The following seasonal discounts may apply on coal, provided such coal is sold for domestic use only:

Mine Index Nos.	Market areas in which discounts apply	Size group	Apr.	May	June	July	Aug.	Sept.	Oct.
1, 2, 3, 4, 5, 6, 7, 8, 9, 11, 12, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23.	117, 120, 121, 122, 123, 124, 145, 146, 147, 148, 150, 151, 152, 153, 212.	1	75	65	55	45	35	25	15
		2 and 4	75	65	55	45	35	25	15

§ 333.2 Description of size groups applicable to Alabama rail and truck mines, Subdistricts 1 and 2

Size group No.	Grade	Size dimensions	
		Top size	Bottom size
1	Lump	No limit	Larger than 2"
	Egg	Larger than 6"	No limit
2	Egg	6" and larger than 3"	No limit
3	Lump	No limit	Not larger than 2"
4	Egg	5" and larger than 3"	No limit
	Egg	3" and larger than 1 1/2"	Larger than 1 1/2"
5	Egg	4" and larger than 3"	1 1/2" and larger than 1 1/2"
6	Nut—washed	3" and larger than 1 1/2"	1 1/2" and larger than 1 1/2"
7	Nut—raw	3" and larger than 1 1/2"	1 1/2" and larger than 1 1/2"
8	Chestnut—washed	3" and larger than 1 1/2"	Not larger than 1 1/2"
	Chestnut—washed	Not larger than 1 1/2"	Larger than 1 1/2"
9	Chestnut—raw	3" and larger than 1 1/2"	Not larger than 1 1/2"
	Chestnut—raw	Not larger than 1 1/2"	Larger than 1 1/2"
10	Chestnut—washed	Not larger than 1 1/2"	Not larger than 1 1/2"
11	Chestnut—raw	Not larger than 1 1/2"	Not larger than 1 1/2"
12	Mine run—washed	Straight mine run; no fines removed.	Mine run, modified by the removal of any intermediate size or sizes; no fines removed.
		All resultant coals larger than 6"; no fines removed.	Straight mine run; no fines removed.
13	Mine run—raw	Mine run, modified by the removal of any intermediate size or sizes; no fines removed.	All resultant coals larger than 6"; no fines removed.
		All resultant coals larger than 6"; no fines removed.	Mine run, modified by the removal of any intermediate size or sizes; no fines removed.
14	6" x 0—washed	All resultant coals larger than 6"; no fines removed.	All resultant coals larger than 6"; but not larger than 6"; no fines removed.
15	5" x 0—washed	All resultant coals larger than 4"; but not larger than 5"; no fines removed.	All resultant coals larger than 4"; but not larger than 5"; no fines removed.

¹ Applies only to Mine Nos. 9, 11 and 17.

§ 333.4 Numerical list of code members in Subdistrict No. 1—Continued

Name of code member	Mine	Seam	Sub-District No.	Mine Index No.	Freight Origin Group No.
Brilliant Coal Company	Calumet	Mary Lee	1	32	100
Galloway Coal Company	Holly Grove	Jagger	1	33	101
Cane Creek Mining Co.	Bankhead	Mary Lee	1	34	102
Kershaw Mining Co.	Kershaw	Mary Lee	1	35	103
Galloway Coal Company	Mill Creek	Mary Lee	1	36	104
Alabama By-Products Corporation	Sayreton	Mary Lee	1	37	80
Republic Steel Corp.	Warrior River	Mary Lee	1	38	35
Brookside-Pratt Mining Company	No. 5 Seale	Brookwood/Milledale	1	39	101
Twin Seam Mining Company	Acmar	Henry Ellen	1	40	180
Alabama Fuel & Iron Company	Barney	Mary Lee	1	41	10
Alabama By-Products Corporation	Howard	Jagger	1	42	120
Mess & McCormack Coal Company	Hull	Mary Lee	1	43	101
DeBardeleben Coal Corporation	Townley	Jagger	1	44	80
DeBardeleben Coal Corporation	Lewisburg	Mary Lee	1	45	101
Sloss-Sheffield Steel & Iron Company	Newcastle No. 2	Mary Lee	1	46	96
Alabama By-Products Corporation	Colla	Mary Lee	1	47	31
Sloss-Sheffield Steel & Iron Company	Flat Top	Mary Lee	1	48	31
Tennessee Coal, Iron and Railroad Co.	Hamilton	Mary Lee	1	49	30
Franklin Coal Mining Co.	Powhatan	Mary Lee	1	51	33
Alabama By-Products Corporation	Prasco	Mary Lee	1	52	31
Alabama Fuel & Iron Company	Brookston	Harkness	1	53	33
Alabama Fuel & Iron Company	Corona (Coal Valley)	Harkness	1	54	35
DeBardeleben Coal Corporation	Margaret	Helena	1	55	70
Alabama Fuel & Iron Company	Paramount #4	Pratt	1	56	41
East Pratt Coal Company	Cliff	Pratt	1	57	10
Tennessee Coal, Iron and Railroad Co.	Dorena	Pratt	1	58	31
Woodward Iron Company	Dolomite	Pratt	1	59	61
Tennessee Coal, Iron and Railroad Co.	Edgewater	Pratt/America	1	60	33
Woodward Iron Company	Mulga	Pratt	1	62	31
Colonial Coal & Coke Co. (J. M. McHugh)	Pratt No. 1 Slope	Pratt	1	63	33
Tennessee Coal, Iron and Railroad Co.	Wylam	Pratt/America	1	64	30
Black Diamond Coal Mining Co.	Johns (Oswayo)	Blue Creek	1	65	73
Porter Coal Co.	Porter	Mary Lee	1	66	33
Red Diamond Mining Co. 1	Red Diamond	Henry Ellen	1	67	31

¹ Mines with index numbers 1, 2, 3, 4, 6, 7, 8, 10, 14, and 15 may reduce the prices listed above 10 cents per ton when sale is made to or through an American agent.

² Applies only to the Ocean Steamship Company, Savannah, Georgia.

SUBPART B—ALL SHIPMENTS FOR SUBDISTRICT NO. 3 EXCEPT TRUCK

§ 333.21 Price instructions and exceptions—(a) Price instructions. (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona fide and legitimate farmers' cooperative organizations.

(3) In the sale of coal to destinations outside the boundary of the United States, prices listed herein are for payment in United States funds.

(4) Size designations listed herein are for round hole screens. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for the equivalent sizes produced by use of round hole screens, as determined by the test prescribed by A. S. T. M. designation D-410-38. If the percentage of over-size exceeds five percent, the price for the next larger size group classification for that mine shall apply.

(5) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(6) The prices listed herein for shipment via rail transportation apply also for shipment via all other methods of transportation except truck or wagon.

whose purchases of coal are directly made by the controlling system.

¹ Mine with index number 40 may deliver locomotive fuel to the Mobile and Ohio Railroad at Fox, Alabama, over the privately owned railroad of the Twin Seam Mining Co. at price listed above.

² Mine with index number 44 may reduce the price listed above when for delivery to the Illinois Central R. R. by the amount of \$10.73 per car, which amount is the contemporaneous weighing and switching charge.

³ Mines with index numbers 46 and 49 may deliver locomotive fuel to the Southern R. R. over the privately owned railway of the Sloss-Sheffield Steel & Iron Co. at the price listed above.

⁴ Mines with index numbers 62 and 64 may deliver locomotive fuel to the A. B. & C. R. R. over the privately owned railway of the Woodward Iron Company at the price listed above.

(b) Prices for shipment by railroad, applicable only for blacksmithing use for all destinations in market areas as listed.

Mine Index No.	Sub-district No.	Market Areas in which prices apply	Price
17, 67, 68	1	111, 112, 113, 114, 115, 116, 117, 118, 120, 121, 122, 123, 124, 125, 126, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 139, 140, 141, 142, 143, 145, 146, 147, 148, 150, 151, 152, 153, 154, 155, 156, 157, 212	425
76, 77, 78	1	All Market Areas not listed above	350
		For shipment to all railroads in all areas	425

(7) The Market Areas to which reference is made in this schedule are those which are numerically designated and geographically described in the "Schedule of Common Consuming Market Areas, Established in Connection with the Effective Minimum Prices, Pursuant to section 4, Part II of the Bituminous Coal Act of 1937."

(8) Railway Locomotive Fuel prices listed herein shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

(9) The term "Industrial Coal" in this schedule means coal used in those industrial plants which buy and receive coal in carload quantities for their own use and which have physical railway or waterway connections for receiving coal.

(10) The term "Domestic Coal" in this schedule means coal other than that defined as "Industrial Coal".

(11) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(12) Various parts of this schedule contain special notes, instructions and exceptions, applicable to specified situations. Such special notes, instructions and exceptions are in addition to the general price instructions and price exceptions listed herein. In the event of any inconsistency between such special notes, instructions and exceptions, and the general price instructions and price excep-

tions, the special notes, instructions and exceptions shall control.

(13) In the event any price instruction, price exception, or any other provision of this schedule is inconsistent with any provision of any order, rule or regulation of the National Bituminous Coal Commission or the Bituminous Coal Division issued prior to the effective date of this schedule, the price instructions and exceptions and provisions of this schedule shall control.

(b) Price exceptions. (1) Minimum prices for any sale of coal which, under section 3 (e) of the Bituminous Coal Act of 1937 or other provisions of law, is exempt from the tax of one cent per net ton levied by section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

(3) Any producer whose mine has a through haul rail rate to any destination

that is higher than the contemporaneous through haul rail rate applicable to any other mine to such destination, may reduce the f. o. b. mine price shown herein, by the exact amount of such differential: *Provided*, Such reduction shall not exceed 35 cents per net ton. (This exception does not apply on shipments of coal from any mine to any destination in Market Area No. 112).

(4) When coal is washed, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

(5) Seasonal discounts. The following seasonal discounts may apply on coal: *Provided*, Such coal is sold for domestic use only:

Mine index Nos.	Market Areas in which discounts apply	Size Group	May	June	July	Aug.	Sept.
91, 92, 93, 94, 95, 96, 97, 98, 99.	All market areas.	1	50	40	30	20	10
		2	50	40	30	20	10
		3	50	40	30	20	10

§ 333.22 Description of size groups applicable to Tennessee and Georgia rail and truck mines, Subdistricts Nos. 3 and 4

Size group number	Grade	Size dimensions	
		Top size	Bottom size
1	Lump	No limit.	Larger than 2".
	Egg	Larger than 5".	No limit.
2	Egg	5" and larger than 2".	Larger than 2".
	Egg	5" and larger than 2".	2" and smaller.
3	Lump	2" and larger than 1 1/2".	Larger than 1".
4	Nut	2" and larger than 1 1/2".	2" and smaller.
	Nut	1 1/2" and smaller.	1" and smaller.
5	Stoker	1 1/2" and larger than 3/4".	Larger than 1/2".
	Stoker	3/4" and smaller.	1/2" and smaller.
6	Stoker	3/4" and smaller.	Larger than 3/8".
7	Mine Run.	Straight mine run; no fines removed.	3/8" and smaller.
	6" x 0	Mine run, modified by the removal of any intermediate size or sizes; no fines removed.	
8	5" x 0	All resultant coals larger than 5"; no fines removed.	
9	4" x 0	All resultant coals 5" and larger than 4"; no fines removed.	
10	3" x 0	All resultant coals 4" and larger than 2"; no fines removed.	
	2" x 0	All screenings 2" and larger than 1 1/2". (Includes specially prepared 2" x 0 nut and slack coal with part of the fines removed. Each car of such coal must contain not less than 40% of fine coal including intermediate coal from washer which will pass through a 3/4" screen.)	
11	1 1/2" x 0	All screenings 1 1/2" and larger than 1 1/4".	
12	1 1/4" x 0	All screenings 1 1/4" and larger than 3/4".	
13	3/4" x 0	All screenings 3/4" and larger than 3/8".	
14	3/8" x 0	All screenings 3/8" and smaller.	
15	Industrial	All lump coal with a bottom size 1" and larger.	
		All double screened coal with a top size larger than 2", and a bottom size 1" or larger.	

See § 333.21 (a) (9) and (10) for definition of Industrial and Domestic coals.

91, 94, 96, 97, 98 99.	For all sizes except screenings.	220
	Screenings with top size not more than 2".	215

SUBPART C—TRUCK SHIPMENT FOR SUBDISTRICTS 1 AND 2

§ 333.31 *Price instructions and exceptions*—(a) *Price instructions.* (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona-fide and legitimate farmers' cooperative organizations.

(3) Size designations listed herein are predicated on the use of round hole screens unless otherwise specified. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for equivalent sizes produced by use of round hole screens. The District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion, will determine the appropriate size designations of the coal produced.

(4) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(5) The term "Industrial Coal" in this schedule means coal used in those indus-

trial plants which buy and receive coal in carload quantities for their own use and which have physical railway or waterway connections for receiving coal.

(6) The term "Domestic Coal" in this schedule means coal other than that defined as "Industrial Coal."

(7) No code member shall evade or violate any of the price provisions of the Act or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

§ 333.33 *Description of size groups applicable to Alabama rail and truck mines, Subdistricts 1 and 2*

Size group Nos.	Grade	Size dimensions	
		Top size	Bottom size
1 Lump	No limit		Larger than 2".
2 Egg	Larger than 6"		No limit.
3 Egg	6" and larger than 5"		No limit.
4 Lump	No limit		Not larger than 2".
5 Egg	5" and larger than 3"		No limit.
6 Egg	3" and larger than 1½"		Larger than 1½".
7 Nut, washed	3" and larger than 1½"		1½" and larger than ¾".
8 Nut, raw	3" and larger than 1½"		1½" and larger than ¾".
9 Chestnut, washed	3" and larger than 1½"		1½" and larger than ¾".
10 Chestnut, raw	3" and larger than 1½"		1½" and larger than ¾".
11 Chestnut, washed	3" and larger than 1½"		1½" and larger than ¾".
12 Chestnut, raw	3" and larger than 1½"		1½" and larger than ¾".
13 Mine run, washed	Straight mine run; no fines removed.		Not larger than ¾".
	Mine run, modified by the removal of any intermediate size or sizes; no fines removed.		
	All resultant coals larger than 6"; no fines removed.		
14 Mine run, raw	Straight mine run; no fines removed.		
	Mine run, modified by the removal of any intermediate size or sizes; no fines removed.		
	All resultant coals larger than 6"; no fines removed.		
15 6"x0, washed	All resultant coals larger than 5", but not larger than 6"; no fines removed.		
16 5"x0, washed	All resultant coals larger than 4", but not larger than 5"; no fines removed.		
17 4"x0, washed	All resultant coals larger than 3", but not larger than 4"; no fines removed.		
18 3"x0, washed	All resultant coals larger than 1½", but not larger than 3"; no fines removed.		
19 2"x0, washed	All resultant coals larger than 1½", but not larger than 3"; no fines removed.		
20 1½"x0, washed	All screenings 1½" and smaller.		
21 6"x0, raw	All resultant coals larger than 5", but not larger than 6"; no fines removed.		
22 5"x0, raw	All resultant coals larger than 4", but not larger than 5"; no fines removed.		
23 4"x0, raw	All resultant coals larger than 3", but not larger than 4"; no fines removed.		
24 3"x0, raw	All resultant coals larger than 1½", but not larger than 3"; no fines removed.		
25 1½"x0, raw	All screenings 1½" and smaller.		
26 Industrial	All lump and double screened coals with a bottom size 1" or larger.		
	All double screened coals with a top size not larger than 4" and a bottom size 1" or larger.		
	All double screened coals with a top size not larger than 3" and a bottom size 1" or larger.		

¹ See § 333.31 (a) (5) and (6) for definition of Industrial and Domestic coals.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(b) *Price exceptions.* (1) Minimum prices for any sale of coal, which under section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal is subjected to any chemical, oil or waxing process for alloying dust, the prices listed in this schedule for such coal shall be increased 15 cents per net ton.

(3) When coals of sizes included in size group No. 13 are washed, the prices listed in this schedule for such coals shall be increased 10 cents per net ton.

(4) *Seasonal discounts.* The following seasonal discounts may apply on coal, provided such coal is sold for domestic use only:

	Size Group	Apr	May	June	July	Aug.	Sept.	Oct.
All market areas...	1	75	65	55	45	35	25	15
All market areas...	2, 3	75	65	55	45	35	25	15
All market areas...	5, 6	65	55	45	35	25	15	0

§ 333.32 *Identification of subdistrict numbers*

No. 1. Alabama, rail connected mines.
No. 2. Alabama, truck mines (no rail connections).

No. 3. Tennessee, rail connected mines.
Georgia, rail connected mines.

No. 4. Tennessee, truck mines (no rail connections).
Georgia, truck mines (no rail connections).

§ 333.34 General prices in cents per net ton for shipment into oil market areas

SUBPART D—TRUCK SHIPMENTS FOR SUBDISTRICTS 3 AND 4

§ 333.41 *Price instructions and exceptions*—(a) *Price instructions*. (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona-fide and legitimate farmers' cooperative organizations.

(3) Size designations listed herein are predicated on the use of round hole screens unless otherwise specified. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for equivalent sizes produced by use of round hole screens. The District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion, will determine the appropriate size designations of the coal produced.

(4) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(5) The term "Industrial Coal" in this schedule means coal used in those industrial plants which buy and receive coal in carload quantities for their own use and which have physical railway or waterway connections for receiving coal.

(6) The term "Domestic Coal" in this schedule means coal other than that defined as "Industrial Coal."

(7) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation

companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(b) *Price exceptions*. (1) Minimum prices for any sale of coal, which under section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

(3) When coal is washed, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

(4) *Seasonal discounts*. The following seasonal discounts may apply on coal, provided such coal is sold for domestic use only:

	Size group	May	June	July	Aug.	Sept.
All market areas.....	1	50	40	30	20	10
All market areas.....	2	50	40	30	20	10
All market areas.....	3	50	40	30	20	10

§ 333.42 *Description of size groups applicable to Tennessee and Georgia rail and truck mines, Subdistricts Nos. 3 and 4*

Size Group Nos.	Grade	Size dimensions	
		Top size	Bottom size
1	Lump.....	No limit.	Larger than 2".
	Egg.....	Larger than 5".	No limit.
	Egg.....	5" and larger than 2".	Larger than 2".
2	Egg.....	5" and larger than 2".	2" and smaller.
	Egg.....	2" and larger than 1½".	Larger than 1".
3	Lump.....	No limit.	2" and smaller.
	Nut.....	2" and larger than 1½".	1" and smaller.
4	Nut.....	1½" and smaller.	Larger than ½".
5	Stoker.....	1½" and larger than ¾".	¾" and smaller.
	Stoker.....	¾" and smaller.	Larger than ¾".
6	Stoker.....	¾" and smaller.	¾" and smaller.
7	Mine Run.....	Straight mine run; no fines removed.	
	6" x 0.....	Mine run, modified by the removal of any intermediate size or sizes; no fines removed.	
8	5" x 0.....	All resultant coals larger than 5"; no fines removed.	
9	4" x 0.....	All resultant coals 5" and larger than 4"; no fines removed.	
10	3" x 0.....	All resultant coals 4" and larger than 2"; no fines removed.	
	2" x 0.....	All screenings 2" and larger than 1½". (Includes specially prepared 2" x 0 nut and slack coal with part of the fines removed. Each car of such coal must contain not less than 40% of fine coal including intermediate coal from washer which will pass through a ¾" screen.)	
11	1½" x 0.....	All screenings 1½" and larger than 1½".	
12	1½" x 0.....	All screenings 1½" and larger than ¾".	
13	¾" x 0.....	All screenings ¾" and larger than ¾".	
14	¾" x 0.....	All screenings ¾" and smaller.	
15	Industrial ¹	All lump coal with a bottom size 1" and larger. All double screened coal with a top size larger than 2", and a bottom size 1" or larger.	

¹ See § 333.41 (a) (5) and (6) for definition of Industrial and Domestic coals.

334.7 Special prices: railroad locomotive fuel.

SUBPART B—TRUCK SHIPMENTS

- 334.21 Price instructions and exceptions.
334.22 Production groups defined.
334.23 Size group description.
334.24 General prices.

SUBPART A—ALL SHIPMENTS EXCEPT TRUCK

§ 334.1 *Price instructions and exceptions—(a) Price instructions.* (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to Rules and Regulations for

transportation except truck or wagon.

(7) The Market Areas to which reference is made in this schedule are those which are numerically designated and geographically described in the "Schedule of Common Consuming Market Areas, Established in Connection with the Effective Minimum Prices, Pursuant to section 4, Part II of the Bituminous Coal Act of 1937".

(8) Railway Locomotive Fuel prices listed herein shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

(9) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, or any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b.

mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(10) Various parts of this schedule contain special notes, instructions and exceptions, applicable to specified situations. Such special notes, instructions and exceptions are in addition to the general price instructions and price exceptions listed herein. In the event of any inconsistency between such special notes, instructions and exceptions, and the general price instructions and price exceptions, the special notes, instructions and exceptions shall control.

SUBPART B—TRUCK SHIPMENTS

§ 334.21 *Price instructions and exceptions*—(a) *Price instructions*. (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona-fide and legitimate farmers' cooperative organizations.

(3) Size designations listed herein are predicated on the use of round hole screens unless otherwise specified. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for equivalent sizes produced by use of round hole screens. The District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion, will determine the appropriate size designations of the coal produced.

(4) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(5) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual

cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(b) *Price exceptions*. (1) Minimum prices for any sale of coal, which under Section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by section 3 (a) of such Act shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

(3) When coal, other than railway locomotive fuel, is loaded in box cars, the prices listed in this schedule for such coal shall be increased as follows:

	Cents
Production Group 1	15
Production Groups 2, 3, 4, 5, 6, 7, 8, and 9	25

(4) Prices listed herein for smithing coal shall be increased 150 cents per net ton when such coal is sacked.

§ 334.22 *Production groups defined*.

1. Includes all mines in Pope County, all mines in the "Spadra field" of Johnson County, Arkansas.

2. Includes all mines in the Denning-Coal Hill and Altus fields of Franklin and Johnson Counties, and all mines in the Philpott field of Johnson and Franklin Counties, Arkansas.

3. Includes all mines in the "Paris field" of Logan County, Arkansas, and mines in Franklin County located in Paris Basin.

4. Includes all mines in the "Charleston field" in Franklin County, Arkansas.

5. Includes all mines in Sebastian County, Arkansas.

6. Includes all mines in the "Panama field" of Leflore County, Oklahoma.

7. Includes mines in the "Bokoshe and Milton field" of Leflore County, Oklahoma, mines in the McCurtain field of Haskell County and all mines in Sequoyah County, Oklahoma.

8. Includes all mines in the "Poteau-Wister field" in Leflore County, Oklahoma.

9. Includes all mines in the "Howe-Heavener field" of Leflore County, Oklahoma, and all mines in the "Bates field" in Scott County, Arkansas.

10. Includes all mines in the "Stigler-Kanima field" in Haskell County, Oklahoma.

11. Includes all mines in the "Scranton field" of Logan County, Arkansas.

§ 334.23 *Size group description*

1. Lump (Solid Shot)—All lump coal, screened over bar screens spaced more than $\frac{3}{4}$ " apart.

2. Lump (Solid Shot)—All lump coal, screened over bar screens spaced not more than $\frac{3}{4}$ " apart.

3. Lump (Solid Shot)—All lump coal, screened over perforated plates with round holes $2\frac{1}{2}$ " or smaller.

4. Lump (Machine Cut)—All lump coal, screened over perforated plates with round holes $2\frac{1}{2}$ " and larger.

5. Lump (Machine Cut)—All lump coal, screened over perforated plates with round holes under $2\frac{1}{2}$ " in diameter.

6. Grate—All double screened coals with a bottom size larger than 4".

7. Furnace—All double screened coals with a top size larger than 4" and a bottom size larger than $2\frac{1}{2}$ " but not larger than 4".

8. Egg—All double screened coal with a top size larger than 4" and a bottom size $2\frac{1}{2}$ " and smaller; also all double screened coal with a top size larger than 3" but not larger than 4" and a bottom size larger than 2" but not larger than 4".

9. Small Egg—All double screened coals with a top size larger than 3" but not larger than 4" and a bottom size $2\frac{1}{2}$ " and smaller; also double screened coals with a top size larger than $2\frac{1}{2}$ " but not larger than 3" and a bottom size larger than $1\frac{1}{2}$ " but not larger than 3".

10. Stove—All double screened coals with a top size larger than $2\frac{1}{2}$ " but not larger than 3" and a bottom size not larger than $1\frac{1}{2}$ "; also all double screened coals with a top size larger than $1\frac{1}{2}$ " but not larger than $2\frac{1}{2}$ " and a bottom size larger than $1\frac{1}{2}$ " but not larger than $2\frac{1}{2}$ ".

11. Nut—All double screened coals with a top size larger than $1\frac{1}{2}$ " but not larger than $2\frac{1}{2}$ " and a bottom size larger than $\frac{3}{8}$ " but not larger than $1\frac{1}{2}$ ".

12. Range—All double screened coals with a top size larger than $1\frac{1}{2}$ " but not larger than $2\frac{1}{2}$ " and a bottom size $\frac{3}{8}$ " and smaller; also all double screened coals with a top size larger than $1\frac{1}{4}$ " but not larger than $1\frac{1}{2}$ " and a bottom size larger than $\frac{3}{8}$ " but not larger than $1\frac{1}{2}$ ".

13. Chestnut—All double screened coals with a top size larger than $1\frac{1}{4}$ " but not larger than $1\frac{1}{2}$ " and a bottom size $\frac{3}{8}$ " and smaller; also all double screened coals with a top size not over $1\frac{1}{4}$ " and a bottom size larger than $\frac{3}{8}$ " but not larger than $1\frac{1}{4}$ ".

14. Nut Run—Includes all sizes of coal having a maximum top size of $2\frac{1}{2}$ ", with no coal removed.

15. Slack—Includes all sizes of coal having a maximum top size of $1\frac{1}{4}$ ", with no coal removed.

16. Slack—Includes all sizes of coal having a maximum top size of $\frac{3}{8}$ ", with no coal removed.

17. Pea—All double screened coals with the top size not larger than $1\frac{1}{4}$ " and a bottom size not larger than $\frac{3}{8}$ ".

18. Mine Run—Includes all coal as it comes from the mine with no part of the small coal removed.

19. Dead Coal—Any size coal used by smelters for ore reduction.

20. Smithing Coal—Any size coal used for blacksmithing.

SUPPLEMENT NO. 1 TO PART 334, MINIMUM PRICE SCHEDULE FOR DISTRICT NO. 14

SUBPART A—ALL SHIPMENTS EXCEPT TRUCK

§ 334.5 *Alphabetical list of code members—Changes and omissions in code member listings.* In line "B" is shown the name of the Code Member listed in the effective minimum price schedule.

In line "A" is shown the name of the successor to such Code Member. Prices applicable to the specified mine of the Code Member in line "B" are now applicable to such mine of the successor Code Member. Names shown without "A" or "B" were inadvertently omitted from the effective minimum price schedules.

PART 335—MINIMUM PRICE SCHEDULE,
DISTRICT NO. 15

CONTENTS

SUBPART A—ALL SHIPMENTS EXCEPT TRUCK

Sec.

- 335.1 Price instructions and exceptions.
- 335.2 Size group description.
- 335.3 Size groups on commercial coal; key sizes for all coal.
- 335.4 Production groups defined.
- 335.5 Alphabetical list of code members.
- 335.6 Schedule of delivered differentials.
- 335.7 General prices; domestic, industrial, and commercial coal schedule.
- 335.8 Special prices:
 - (a) Oklahoma "smithing coal."
 - (b) Railroad locomotive fuel.

SUBPART B—TRUCK SHIPMENTS

- 335.21 Price instructions and exceptions.
- 335.22 Identification of production groups.
- 335.23 Size group description.
- 335.24 General prices.

SUBPART A—ALL SHIPMENTS EXCEPT TRUCK

§ 335.1 *Price instructions and exceptions*—(a) *Price instructions*. (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona fide and legitimate farmers' cooperative organizations.

(3) In the sale of coal to destinations outside the boundary of the United States, prices listed herein are for payment in United States funds.

(4) Size designations listed herein are for round hole screens. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for the equivalent sizes produced by use of round-hole screens, as determined by the test prescribed by A. S. T. M. designation D-410-38. If the percentage of oversize exceeds five per cent, the price for the next larger size group classification for that mine shall apply.

(5) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(6) The prices listed herein for shipment via rail transportation apply also for shipment via all other methods of transportation except truck or wagon.

(7) The Market Areas to which reference is made in this schedule are those which are numerically designated and geographically described in the "Schedule of Common Consuming Market Areas, Established in Connection with the Ef-

fective Minimum Prices. Pursuant to section 4, Part II of the Bituminous Coal Act of 1937".

(8) Railway Locomotive Fuel prices listed herein shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

(9) This Price Schedule is divided into three parts, namely:—

Part I—Domestic and Commercial Use and Industrial Use.

(i) Prices shown for Domestic and Commercial Use apply (a) on all sales in retailing of coal. (b) On all sales of coal to consumers using coal principally for space heating. (c) On all other sales except Industrial Use and as provided for in Part II Special Purpose Use and Part III Railroad Locomotive Fuel Use.

(ii) Prices in the Industrial Use Schedule apply only where sale is made by the Producer Code Member, his authorized agent, or a registered wholesaler or jobber and where the coal moves direct from the mine of the producer to the consumer using the fuel principally for (a) the purpose of driving steam engines or turbines. (b) The purpose of manufacturing or processing if fuel is required each day of the year products of the consumer are produced.

Part II—Special Purpose Coal Use. The prices shown in Part II apply to all coal produced in what is known as the Briartown District in Oklahoma.

Part III—Railroad Locomotive Use Schedule. Prices apply on coal sold to railroads for locomotive fuel use only.

(10) Prices listed herein for Market Areas 208, 210 and 211 shall apply for all market areas not specifically named in this schedule.

(11) *Delivered Differentials*: (i) The f. o. b. mine prices listed herein may be adjusted in accordance with the Schedule of Delivered Differentials shown on page 12.

(ii) All delivered differentials shall be based upon the lowest freight origin group rate from the base production group, except that to destinations in the State of Missouri the lowest mileage, group or specific rate from a rail shipping mine, shall be used.

(iii) All similarly classified mines located in the same production group may effect equal delivered prices to all destinations.

(iv) The maintenance of the delivered differentials, as provided above, shall be subject to the limitation that the maximum difference in freight rates between the mine in the base production group having the lowest freight rate, and any other mine, shall not exceed 60 cents.

(12) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transporta-

tion companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(13) Various parts of this schedule contain special notes, instructions and exceptions, applicable to specified situations. Such special notes, instructions and exceptions are in addition to the general price instructions and price exceptions listed herein. In the event of any inconsistency between such special notes, instructions and exceptions, and the general price instructions and price exceptions, the special notes, instructions and exceptions shall control.

(14) In the event any price instruction, price exception, or any other provision of this schedule is inconsistent with any provision of any order, rule or regulation of the National Bituminous Coal Commission or the Bituminous Coal Division issued prior to the effective date of this schedule, the price instructions and exceptions and provisions of this schedule shall control.

(b) *Price exceptions*. (1) Minimum prices for any sale of coal which, under Section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by Section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

(3) Prices listed herein may be reduced a maximum of 15 cents per net ton for shelly, off-grade coal on Sizes 1 to 7, inclusive, provided the District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion determines that such coal is shelly, off-grade coal. All orders, acknowledgments and

invoices shall contain a complete description of such shelly, off-grade coal.

§ 335.2 Size group description

1. Fancy lump—Lump coal with a bottom size larger than 3", and all double screened coal with a top size larger than 10".

2. Lump—Lump coal with a bottom size 3" or smaller.

3. Furnace or egg—Double screened coals with a top size not larger than 10" but larger than 3" and a bottom size larger than 1 1/4".

4. Egg-nut—Double screened coals with a top size not larger than 10" but larger than 3" and a bottom size 1 1/4" and smaller.

5. Fancy nut—Double screened coals with a top size not larger than 3" but larger than 2" and a bottom size larger than 1 1/4".

6. Standard nut—Double screened coals with a top size not larger than 3" but larger than 2" and a bottom size 1 1/4" and smaller.

7. No. 2 Nut—Double screened coal with a top size not larger than 2" but larger than 1 1/4".

8. Chestnut—Double screened coals with a top size 1 1/4" and smaller and a bottom size larger than 3/8".

9. Mine run—Coal shoveled at the face from which no coal has been removed either at the face, preparation plant, or when loading into transportation facilities, and shall contain not less than 30% screenings that will pass through a 1 1/4" screen. Run of mine containing less than 30% screenings that will pass through a 1 1/4" screen shall be classified as Lump coal and sold at not less than the Lump coal price.

10. Nut run—Coal passing through not larger than a 3" screen, from which no coal has been removed, and it shall contain not less than 50% screenings that will pass through a 1 1/4" screen. Nut run containing less than 50% screenings that will pass through a 1 1/4" screen shall be classified as 3" Nut coal and sold at no less than the price applying on Standard nut.

11. Special stoker—Double screened coals with a top size 1 1/4" and smaller and a bottom size larger than 1/4" but not larger than 3/8".

12. Raw prepared screenings—Double screened coals with a top size 1 1/4" and smaller and a bottom size 1/4" and smaller.

13. Washed screenings—1 1/4" x 0—Washed coal passing through a screen with openings not over 1 1/4" from which no coal has been removed.

14. Screenings—1 1/4" x 0—Raw coal passing through a screen with openings not over 1 1/4" from which no coal has been removed.

15. Raw dust—1/4" x 0—Coal that has not been washed passing through a

screen with openings not over 1/4" from which no coal has been removed, and to which no coal crushed from a larger size has been added.

§ 335.3 Size groups on commercial coal, key sizes for all coal

Key sizes. Lump—bottom size description: 1, larger than 5"; 2, larger than 3" but not exceeding 5"; 3, larger than 1 1/4" but not exceeding 3"; 4, larger than 3/8" but not exceeding 1 1/4"; 5, 3/8" and smaller. Mine run: 40, straight mine run and resultants over 3". Screenings or slacks: 50, washed, larger than 1 1/4" x 0 but not larger than 3 x 0; 51, washed, larger than 3/8 x 0 but not larger than 1 1/4 x 0; 52, washed, 3/8 x 0 and smaller; 55, raw, larger than 1 1/4 x 0 but not larger

than 3 x 0; 56, raw, larger than 3/8 x 0 but not larger than 1 1/4 x 0; 57, raw, larger than 1/4 x 0 but not larger than 3/8 x 0; 58, raw, 1/4 x 0 or smaller.

COMMERCIAL SIZE GROUPS

Size group:	Key sizes
1-----	1, 2, 10 to 17 inclusive.
2-----	3, 4, 5.

																11	11
																11	11

Note: If top size is fractional or not shown, move to the nearest size on the right—Example, 1 1/16 = 3/4; 5/16 = 3/8; if bottom size is fractional or not shown, move down to the nearest size—Example, 1 1/16 = 3/4; 5/16 = 3/8; consider 4 mesh = 1/4; 8 mesh = 1/8; 10, 16, 20 or smaller = 1/16.

§ 335.4 Production groups defined

Group No. and Description

1. All mines located in Cherokee, Crawford, Bourbon, Neosho, Labette and Wilson Counties, Kansas; and Barton, Jasper, Dade, Cedar, and that portion of Vernon County lying south of an east and west line drawn through the town of Nevada, Missouri.

2. All mines located in Linn County, Kansas; and Bates, Henry, St. Clair, Miller, Morgan, Pettis and Johnson Counties; and that portion of Vernon County lying north of an east and west line drawn through the town of Nevada in Missouri.

3. All mines located in Boone, Callaway, Audrain, Randolph, Clark, Macon, Linn, Grundy, Harrison, Adair, Chariton, Schuyler, Putnam, Cole, Howard, Monroe, Warren, Lincoln, Sullivan and Ralls Counties in Missouri.

4. All mines located in Ray, Clay, Caldwell, Daviess, Clinton, and Carroll Counties in Missouri.

5. All mines located in Lafayette County, Missouri.

6. All mines located in Osage, Franklin, Lyon, and Coffey Counties, Kansas.

7. All mines operating on the genuine McAlester seam in Pittsburg and Latimer Counties, Oklahoma.

8. All mines operating on the Wilburton-Hartshorne seams in Pittsburg and Latimer Counties, Oklahoma.

9. All mines located in Coal County, Oklahoma.

10. All mines located in Okmulgee County, Oklahoma.

11. All mines located in Tulsa, Wagoner, Roger, and Craig Counties, Oklahoma, and all of that part of Muskogee County, Oklahoma, north of a line drawn straight east and west across Muskogee County, along the southern limits of the town of Porum, Oklahoma.

12. All mines located in Muskogee County, Oklahoma, south of a line drawn straight east and west along the southern limits of the town of Porum, Oklahoma.

13. All mines located in Johnson, Leavenworth, and Wyandotte Counties, Kansas.

Domestic and commercial

* Not on railroad—Prices based on Barney, Iowa.

1 Production Group No. 2 sets the base.

§ 335.8 *Special prices—(a) Oklahoma "smithing coal" from production group No. 12.*

MINIMUM PRICES F. O. B. MINE FOR COAL SHIPPED BY RAIL TO DESTINATIONS AS SHOWN

Size	To Minneapolis & St. Paul, Minn. & M. A. No. 40	To all other destinations
Crushed Mine Run—Bulk	465	500
Crushed Mine Run—Sacked	1615	1650
Lump—Over 2½"	515	550

¹130 cents per ton may be deducted when buyer furnishes sacks.

(b) *Railroad locomotive fuel.*

MINIMUM PRICES F. O. B. MINES IN CENTS PER TON OF 2,000 LBS.

Production group No. 1:	
Railroad locomotive fuel	210
3" x 0 Washed or 3" x ¼" Unwashed	200
2" x 0 Washed or 2" x ¼" Unwashed	185
1½" x 0 Washed or 1½" x ¼" Unwashed	170
Locomotive fuel sold to the Mo. Pac. R. R. for use at points on its Western division (Holsington, Kansas and west thereof)	170

Exception. The actual published switching charges not to exceed \$6.93 per car may be absorbed from the above prices.

Production group No. 2:	
Railroad locomotive fuel	210
3" x 0 stoker screenings with ½ of fines removed	195
2" x 0	170
Production group No. 3:	
Railroad locomotive fuel	210
2" x 0	170

Exception. Mines located on the Bevier & Southern R. R. may absorb the actual published switching or division charges, not to exceed 20 cents per ton, on railroad locomotive fuel sold to the C. B. & Q. R. R.

Production group No. 4:	
Railroad locomotive fuel	250
Production group No. 5:	
Railroad locomotive fuel	250

Exception. Mines on Alton R. R. in Production Group 5 at Corder, Missouri:

Railroad locomotive fuel	220
Production group No. 6:	
Railroad locomotive fuel	225
Production group Nos. 7, 8, 10:	
Railroad locomotive fuel	210
Production group No. 11:	
Railroad locomotive fuel	210
3" x ¼"	200
2" x ¼"	185

SUBPART B—TRUCK SHIPMENTS

§ 335.21 *Price instructions and exceptions—(a) Price instructions.* (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective Marketing Rules and Regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to Rules and Regulations for the registration of distributors and bona-fide and legitimate farmers' cooperative organizations.

(3) Size designations listed herein are predicated on the use of round hole screens unless otherwise specified. When other types of screens are used, the producer shall observe, for the sizes which he

produces, the prices listed for equivalent sizes produced by use of round hole screens. The District Board, with the approval of the Bituminous Coal Division, upon petition of the producer or upon its own motion, will determine the appropriate size designations of the coal produced.

(4) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(5) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation is not an arm's length transaction (for example, when transportation facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be the actual cost thereof, determined in a reasonable manner.

Doubtful situations may be referred to the Director of the Bituminous Coal Division for a ruling.

(b) *Price exceptions.* (1) Minimum prices for any sale of coal, which under section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When coal is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

(3) Prices listed herein may be reduced a maximum of 15 cents per net ton for shelly off-grade coal on Sizes 1 to 7, inclusive, provided the District Board, with the approval of the Bitu-

minous Coal Division, upon petition of the producer or upon its own motion determines that such coal is shelly, off-grade. All orders, acknowledgements and invoices shall contain a complete description of such shelly, off-grade coal.

(4) Prices listed herein for Putnam and Schuyler Counties, Group No. 3, may be reduced 20 cents per net ton for size group 9 coals, mine run, containing 30% or more screenings that will pass through a 1¼" screen.

(5) Prices shown herein for Sizes 1 to 10, inclusive, from Production Group No. 1 are for unwashed coal. When these sizes are washed, 15¢ per ton shall be added to the price indicated.

(6) Prices shown for production groups 2 and 3 in size groups 5, 6, 7, 8, and 10 are for washed coal. Raw or unwashed coal may be sold for 10¢ less than the prices shown.

§ 335.22 *Identification of production groups*

Group No. and Location

1. All mines located in Cherokee, Crawford, Bourbon, Neosho, Labette and Wilson Counties, Kansas; and Barton, Jasper, Dade, Cedar, and that portion of Vernon County lying south of an east and west line drawn through the town of Nevada, Missouri.

2. All mines located in Linn County, Kansas; and Bates, Henry, St. Clair, Morgan, Pettis and Johnson Counties; and that portion of Vernon County lying north of an east and west line drawn through the town of Nevada in Missouri.

3. All mines located in Boone, Callaway, Audrain, Randolph, Clark, Macon, Linn, Grundy, Harrison, Adair, Chariton, Lincoln, Sullivan, Schuyler, Putnam, Cole, Howard, Munroe, Warren, and Ralls Counties in Missouri.

4. All mines located in Ray, Clay, Caldwell, Daviess, Clinton, and Carroll Counties in Missouri.

5. All mines located in Lafayette County, Missouri.

6. All mines located in Osage, Franklin, Lyon, and Coffey Counties, Kansas.

7. All mines operating on the genuine McAlester seam in Pittsburgh and Latimer Counties, Oklahoma.

8. All mines operating on the Wilburton-Hartshorne seams in Pittsburg and Latimer Counties, Oklahoma.

9. All mines located in Coal County, Oklahoma.

10. All mines located in Okmulgee County, Oklahoma.

11. All mines located in Tulsa, Wagoner, Roger, and Craig Counties, Oklahoma, and all of that part of Muskogee County, Oklahoma, north of a line drawn straight east and west across Muskogee County, along the southern limits of the town of Porum, Oklahoma.

12. All mines located in Muskogee County, Oklahoma, south of a line drawn straight east and west along the southern limits of the town of Porum, Oklahoma.

13. All mines located in Johnson, Leavenworth, and Wyandotte Counties, Kansas.

Size group	Size No.	Size	Top size	Bottom size
		Spec. stoker..... Raw prep segs.....	Not larger than 1½" Not larger than 1½"	Not larger than ¾" but larger than ½" Not larger than ½"
Size group	Size No.	Size	Description	
13		Washed segs.....	1½"x 0—Washed coal passing through a screen with openings not over 1½" from which no coal has been removed.	
14		Screenings.....	1½"x 0—Raw coal passing through a screen with openings not over 1½" from which no coal has been removed.	
15		Raw dust.....	1½"x 0—Coal that has not been washed passing through a screen with openings not over ½" from which no coal has been removed, and to which no coal crushed from a larger size has been added.	

Note: All size designations are for round hole screens.

§ 335.23 Size group description

Size group	Size	Description
1 Fancy lump.	Coal passing over a screen larger than 3"	
2 Lump.	Coal passing over a screen 1/2" to 3" inclusive.	
Size group	Top size	Bottom size
3 Furnace or egg.	Not larger than 10" but larger than 3"	Not less than 1 1/4"
4 Egg-nut.	Not larger than 10" but larger than 3"	Not larger than 1 1/4"
5 Fancy nut.	Not larger than 3" but larger than 2"	Not larger than 1 1/4" but larger than 1"
6 Standard nut.	Not larger than 3" but larger than 2"	Not larger than 1 1/4" but larger than 1"
7 No. 2 nut.	Not larger than 2" but larger than 1 1/4"	Not larger than 1 1/4" but larger than 1"
8 Chestnut.	Not larger than 1 1/4"	Not larger than 1 1/4" but larger than 3/8"
Size group	Size	Description
9 Mine run.	Coal shoveled at the face from which no coal has been removed either at the face, preparation plant, or when loading into transportation facilities, and shall contain not less than 30% screenings that will pass through a 1 1/4" screen. Run of mine containing less than 30% screenings that will pass through a 1 1/4" screen shall be classified as Lump coal and sold at not less than the Lump coal price.	
10 Nut run.	Coal passing through not larger than a 3" screen, from which no coal has been removed, and it shall contain not less than 50% screenings that will pass through a 1 1/4" screen. Nut Run containing less than 50% screenings that will pass through a 1 1/4" screen shall be classified as 3" Nut coal and so on at no less than the price applying on Standard Nut.

SUPPLEMENT NO. 1 TO PART 335, MINIMUM PRICE SCHEDULES FOR DISTRICT NO. 15

SUBPART A—ALL SHIPMENTS EXCEPT TRUCK

§ 335.5 *Alphabetical list of code members—Changes and omissions in code member listings.* In line "B" is shown the name of the Code Member listed in the effective minimum price schedule.

In line "A" is shown the name of the successor to such Code Member. Prices applicable to the specified mine of the Code Member in line "B" are now applicable to such mine of the successor Code Member. Names shown without "A" or "B" were inadvertently omitted from the effective minimum price schedules.

CHAPTER I—BUREAU OF MINES

[Schedule 12C]

SINGLE-SHOT BLASTING UNITS REQUIREMENTS FOR PERMISSIBILITY, TESTS MADE, AND FEES CHARGED

FEES CHARGED

ITEM 1. The fee for a complete investigation under this schedule is \$25 for a unit of the dry-cell type and \$50 for units of the storage-battery and magneto types. A check for the amount, payable to the Treasurer of the United States, should be submitted at the time the application is made.

ITEM 2. The fee for tests covering less than a complete investigation shall be based upon the following charges:

Test	Charge		
	Dry-cell battery unit	Storage-battery unit	Magneto unit
Safety (sparking) test.....	\$5.00	\$5.00	\$10.00
Spilling test.....		5.00	
Life test.....	3.00		10.00
Discharge-voltage test.....		10.00	
Firing-capacity test.....	10.00	20.00	20.00
Dropping test.....	5.00	5.00	5.00

Application for retests that may be equivalent to more than one-half of a complete investigation should be accompanied by a check for the full fee. Application for tests covering other changes in design that may require less than one-half of a complete investigation should be accompanied by a check for one-half of the full fee. Any surplus will be refunded at the close of the investigation.

ITEM 3. Under the present provisions of this schedule extensions of approvals that do not require tests will be made without charge.

ITEM 4. Tests to assist a manufacturer in the development of his unit may be made upon request to the Director of the Bureau of Mines and will be charged for in amounts proportionate to the work involved.

ITEM 5. If the blasting unit is in combination with an electric lamp not previously approved, the tests of the lamp parts shall be made under the current lamp schedules and charged for accordingly.

INSTRUCTIONS FOR MAKING APPLICATIONS

A form of request for an investigation of a blasting unit follows:

The Director of the Bureau of Mines,
Department of the Interior,
Washington, D. C.

DEAR SIR:

We hereby make application for permissibility tests of the _____ single-shot blasting unit, under the provisions of Schedule 12C. Attached is a certified check for _____ dollars (\$ _____), made payable to the Treasurer of the United States, to cover the fee for the tests.

A copy of this application, one set of drawings, and one complete unit are being sent to the Central Experiment Station, 4800 Forbes St., Pittsburgh, Pa., marked for the "Attention of the Electrical Engineer."

(Signature of Applicant)

CONDITIONS GOVERNING INVESTIGATIONS

1. One complete blasting unit, with drawings that show the construction of the device and the materials of which it is made, should be forwarded to the Central Experiment Station at the time the application for tests is made.

2. When this has been inspected by the Bureau's engineers, the applicant will be notified as to the amount of material that will be required for the tests.

3. The applicant will be notified of the date on which the tests will be started and will be given an opportunity to witness the tests.

4. No one is to be present at the time the tests are made, except the necessary Bureau of Mines engineers, their assistants, a representative of the applicant, and such other persons as may be mutually agreed upon by the applicant and the Bureau.

5. Permissibility tests will not be made unless the unit has been completely developed and is in a form that can be marketed.

6. The results of the tests shall be regarded as confidential by all present at the tests and shall not be made public in any way before the shot-firing unit is formally approved by the Bureau of Mines.

7. No verbal report of approval or disapproval will be made to the applicant. After the Bureau's engineers have considered the results of the tests, a formal report of the approval or disapproval will be made to the applicant in writing by the Director of the Bureau of Mines. The applicant shall not be free to advertise the unit as being permissible or as having passed the tests before he receives formal notice of approval.

REQUIREMENTS FOR APPROVAL

Single-shot blasting units approved under this schedule shall be practical in construction and operation and suitable for service conditions underground. They shall offer no probable explosion hazard when used in gassy mine atmospheres. They shall exhibit, under laboratory test conditions, the following requirements of minimum performance:

1. The unit shall fire consistently single electric blasting caps through a total resistance of $4\frac{1}{2}$ ohms.

2. The unit shall not produce sparks capable of igniting explosive mixtures of methane and air.¹

¹ Sparking tests of battery-type units will be made with a brush-type contactor of approximately 50 No. 34 copper wires. The contactor will be surrounded by an explosive mixture of Pittsburgh natural gas and air. The test shall consist of making and breaking the discharge of each of three units at least 300 times with the contactor operating about 60 times per minute. The resistance of the contactor circuit shall not be greater than 0.25 ohm. Similar tests will be made of magneto-type units but with a 1/16-inch bronze brush and brass contactor operating at speeds up to 1,200 makes and breaks per minute.

3. Battery units approved under this schedule shall not have directly exposed terminals.

If the battery is of the storage type, or dry cells having a short-circuit current greater than 10 amperes, it shall be enclosed in an effectively locked or sealed housing which is mechanically strong and covers the battery terminals in such a way as to minimize the possibility of completing the battery circuit except by plugging into a suitable receptacle.

The receptacle and plug must be so designed that firing contact is not made until near the end of the plug travel and that on being released by the hand the plug shall be automatically projected from the receptacle. It is recommended that this plug be so designed that it shall automatically short-circuit the leading wire when free from its receptacle.

The terminals of a dry-cell unit may be recessed, provided the short-circuit current of the battery does not exceed 10 amperes and the depth, shape, and position of the recesses are such as to guard against accidental contact and to insure disconnection of the battery from the leading wires as soon as the contactors are released by the operator.

The following dimensions for the recesses are suggested as an aid in design, based upon a minimum depth of $\frac{1}{2}$ inch. Diameter of bottom, $\frac{1}{8}$ inch; diameter at entrance, $\frac{3}{16}$ to $\frac{1}{4}$ inch; distance between centers of recesses, $1\frac{1}{4}$ to $1\frac{1}{2}$ inches. If the depth of recess is greater than $\frac{1}{2}$ inch, the diameters should be correspondingly greater.

4. Storage batteries serving for both blasting and illumination shall have ample capacity for the combined service or shall be equipped with an automatic device that cuts off the lamp during shot firing. The lamp part of the unit shall be subjected to the requirements of the current lamp schedules.

5. Magneto units shall be operable only by a special key or handle. The design and position of the socket shall be such that the key will drop or be propelled from the socket as soon as released by the operator.

6. A unit that depends on some special modification, such as a shunt resistance, to prevent igniting sparks, shall have its housing sealed or locked to prevent removal or disturbance of this safety feature.

MATERIAL REQUIRED FOR BUREAU OF MINES RECORDS

In order that the Bureau may know exactly what it has tested and approved, it keeps detailed records covering each investigation. These records include drawings and actual equipment, as follows:

Drawings. The original drawings submitted with the application for the tests and any drawings that are needed to show changes in design. These drawings are used to identify the unit in the approval and to check the future product of the manufacturer.

Actual equipment. If the Bureau so desires, parts of the units that are used in the tests will be retained as records of the equipment submitted. If the unit is approved, the Bureau will require the manufacturer to submit one of his units, with the approval plate attached, as a record of his future commercial product.

HOW APPROVALS ARE GRANTED

All approvals are granted through the office of the Director of the Bureau of Mines, at Washington, D. C. A blasting unit will be approved under this schedule only when the testing engineers shall have judged that it has met the requirements of the schedule and the Bureau's records are complete, including drawings from the manufacturer that show the unit as it is to be made. No verbal reports of the investigation will be given, and no informal approvals will be granted. As soon as the manufacturer has received the formal approval he shall be free to advertise his blasting unit as permissible.

WORDING, PURPOSE, AND USE OF APPROVAL PLATE

Approval plate. Manufacturers shall attach, stamp, or mold an approval plate on each permissible single-shot blasting unit. The plate shall bear the seal of the Bureau of Mines, United States Department of the Interior, and be inscribed as follows:

Permissible Single-shot Blasting Unit. Approval No. _____ issued to the _____ Company.

When deemed necessary, an appropriate caution statement shall be added. The size and position of the approval plate shall be satisfactory to the Bureau.

Purpose of approval plate. The approval plate is a label that identifies the device so that any one can tell at a glance whether or not it is of the permissible type. By the plate the manufacturer can point out that his blasting unit complies with the Bureau's requirements and that it has been approved for use in gassy mines.

Use of approval plate. Permission to place the Bureau's approval plate on his unit obligates the manufacturer to maintain the quality of his product and to see that each unit is constructed according to the drawings that have been accepted by the Bureau and are in the Bureau's files. Blasting units exhibiting changes in design that have not been approved are not permissible and must not bear the Bureau's approval plate.

Withdrawal of approval. The Bureau of Mines reserved the right to rescind for cause, at any time, any approval granted under this schedule.

INSTRUCTIONS ON HANDLING FUTURE CHANGES IN DESIGN

All approvals are granted with the understanding that the manufacturer will make his blasting unit according to the drawings that he has submitted to the Bureau and that have been included in

the approval. Therefore, when he desires to make any changes in the design he should first of all obtain the Bureau's approval of the change. The procedure is as follows:

1. The manufacturer should write to the Director of the Bureau of Mines, Washington, D. C., requesting an extension of his original approval and stating the change or changes desired. He should send a copy of the letter, a revised drawing of the change in detail, and one of each of the parts affected to the Central Experiment Station, 4800 Forbes Street, Pittsburgh, Pa., marked "Attention of the Electrical Engineer."

2. The Bureau will consider the application and inspect the drawings and parts to determine whether it will be necessary to make any tests.

3. If no tests are necessary, the applicant will be advised of the approval or disapproval of the change through the director's office.

4. If tests are judged necessary, the applicant will be advised of the material that will be required and of the necessary deposit to cover the fee for the test.

R. R. SAYERS,
Director.

Approved, July 16, 1940.

E. K. BURLEW,
Acting Secretary of the Interior.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. 1228-FD]

THE ST. VINCENT ARCHABBEY

ORDER GRANTING EXEMPTION

The St. Vincent Archabbey, incorporated under the name of The Benedictine Society of Westmoreland County, Latrobe, Pennsylvania, hereinafter referred to as the Applicant, having, on June 3, 1940, filed with the Bituminous Coal Division the above-entitled application seeking exemption pursuant to the provisions of section 4, Part II (1) of the Bituminous Coal Act of 1937 with respect to certain bituminous coal produced by it at its mine located at Latrobe, Pennsylvania, and consumed by it in heating, cooking, and generating power at its institution, located in Latrobe, Pennsylvania; and

The Director having determined on the basis of the verified application and an investigation of the facts alleged therein, that the Applicant is the producer of bituminous coal mined by it from its mine at Latrobe, Pennsylvania, and that all of the bituminous coal produced by the Applicant from said mine is consumed by it in heating, cooking, and generating power at its institution, located at Latrobe, Pennsylvania;

It is ordered, That the above-entitled application for exemption be and the same hereby is granted and that the provisions of section 4, Part II (1) of the Bituminous Coal Act of 1937 apply to the bituminous coal mined by the Applicant from its mine at Latrobe, Pennsylvania, and consumed by the Applicant in heating, cooking, and generating power at its institution, located in Latrobe, Pennsylvania;

Provided, however, That this Order and the exemption hereby granted shall automatically terminate and expire:

1. Unless the applicant, at the expiration of six months from the date of this Order, and at the expiration of each six-month period thereafter, files with the Director a verified report containing the following information, which the Director hereby finds to be necessary and appropriate to enable him to determine whether the conditions supporting the exemption hereby granted continue to exist:

(a) The full name and address of Applicant and the full name and location of the mine covered by the above-entitled application;

(b) The total tonnage of bituminous coal produced by Applicant during the preceding six months at such mine.

(c) The total tonnage of such production which was consumed by the Applicant and the nature and purpose of such consumption.

2. Unless the Applicant shall immediately notify the Director upon any change in the facts set forth in the verified application for exemption filed herein by the Applicant.

It is further ordered, That the exemption granted by this Order shall become effective twenty (20) days from the date hereof unless any interested person files a petition with the Director requesting a hearing on the above-entitled application for exemption within fifteen (15) days from the date hereof.

It is further ordered, That the Director at any time, upon his own motion or upon the petition of any interested person, may direct the Applicant to show cause why the exemption granted by this Order should not be terminated. Any person filing such petition shall serve a copy thereof upon the Applicant herein.

Dated, August 26, 1940.

[Docket No. 485-FD]

INLAND STEEL COMPANY

ORDER GRANTING RENEWAL OF EXEMPTION

Inland Steel Company, Applicant herein, having on April 12, 1938, filed with the National Bituminous Coal Commission a verified application for exemption with respect to certain bituminous

coal produced and consumed by the Applicant, or produced and transported by Applicant to itself for consumption by it, in the manufacture of steel at its plant in Indiana Harbor, Indiana; and

The Commission having, on August 31, 1938, entered an order pursuant to such application, in Docket No. 485-FD, ordering that the provisions of Section 4, Part II (1) of the Bituminous Coal Act of 1937 apply to the bituminous coal produced by Applicant at its mines located at Wheelwright, Kentucky, which is consumed by Applicant in the general manufacture of steel at Indiana Harbor, Indiana, and that such coal shall not be deemed subject to the provisions of Section 4 of the Bituminous Coal Act of 1937; and

The Director of the Bituminous Coal Division, having on September 1, 1939, entered an order in Docket No. 485-FD, renewing the exemption granted to the Applicant by said order of August 31, 1938, providing, however, that said order of August 31, 1938, and the exemption granted thereby shall automatically terminate and expire, unless the Applicant should, on or before August 1, 1940, file an application for renewal of said order; and

Applicant having, on July 29, 1940, filed with the Director of the Bituminous Coal Division a verified application for renewal of said order, which application contains a statement of the quantities of coal produced by Applicant during the period beginning August 1, 1939, and ending June 30, 1940, at its mines located at Wheelwright, Kentucky, and the portion thereof which is consumed by Applicant in the general manufacture of steel at Indiana Harbor, Indiana, and which application also contains a statement that all the facts set forth in the application of April 12, 1938, remain true and correct; and

The Director having determined that the conditions supporting the exemption granted by the order of August 31, 1938 continue to exist:

It is ordered, That the application filed by the Applicant for renewal of said order of August 31, 1938, be and the same is hereby granted;

Provided, however, That said order of August 31, 1938, and the exemption granted thereby shall automatically terminate and expire:

1. Unless the Applicant, at the expiration of six months from the date of this order, and at the expiration of each six-month period thereafter, files with the Director a verified report containing the following information which the Director hereby finds to be necessary and appropriate to enable him to determine whether the conditions supporting the exemption granted to the Applicant continue to exist:

(a) The full name and business address of the Applicant and the name and location of the mine or mines covered by this application;

(b) The total tonnage of bituminous coal produced by the Applicant during the preceding six months at such mine or mines;

(c) The total tonnage of such production which was consumed by the Applicant, and the nature and purpose of such consumption;

(d) A statement that all of the facts set forth in the original application for exemption filed April 12, 1938, remain true and correct.

2. Unless the Applicant shall immediately notify the Director upon:

(a) Any change in the ownership of the mine or mines from which the coal in question was produced, or in the ownership of the plant or factory or other facilities at which the coal is consumed;

(b) Any change in the agency or instrumentality through which the coal is being produced on the date of this order.

It is further ordered, That the Director at any time, upon his own motion or upon the petition of any interested person, may direct the Applicant to show cause why the exemption granted by the order of August 31, 1938, should not be terminated. Any persons filing such a petition shall serve a copy thereof upon the Applicant herein.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 2-4444]

IN THE MATTER OF PHILIPPINE LONG DISTANCE TELEPHONE COMPANY

ORDER GRANTING EXEMPTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 16th day of August, A. D. 1940.

This matter coming on to be heard before the Commission on the application of Philippine Long Distance Telephone Company for exemption from the provisions of the Trust Indenture Act of 1939 of an indenture under which the Applicant proposes to issue certain indenture securities, for which securities the Applicant has filed a registration statement under the Securities Act of 1933, as amended, evidence having been heard, and oral argument had before the Commission; and

The Commission finding, after a consideration of the record and oral argument, that compliance with section 316 (a) of the Trust Indenture Act of 1939 would require the consent of the holders of outstanding securities, within the meaning of section 304 (c) (1) of that Act, and finding further that compliance with the provisions of the said Act would impose an undue burden on the issuer, having due regard to the public interest and the interests of investors, within the meaning of section 304 (c) (2) of the said Act, and finding further that the public interest and the interests of investors would require denial of the application unless the proposed distribution were limited to residents of the Philip-

¹ 5 F.R. 2696.

panies and foreign countries, and unless the registration statement and prospectus filed under the Securities Act of 1933 with respect to the proposed indenture securities were amended to set forth fully the respects in which the indenture fails to incorporate the provisions required by the Trust Indenture Act of 1939;

It is ordered, Pursuant to section 304 (c) of the Trust Indenture Act of 1939 that the aforesaid application for exemption be, and the same hereby is, granted, provided however, and on condition that:

1. The Philippine Long Distance Telephone Company undertake to provide effectively that the securities to be issued under the aforesaid indenture shall be offered and sold only in the Philippines and/or foreign countries or their possessions, and that they shall not be sold or offered elsewhere; and

2. The Philippine Long Distance Telephone Company amend the registration statement and prospectus filed with respect to the proposed issue of indenture securities to set forth fully the respects in which the indenture fails to incorporate the provisions required by the Trust Indenture Act of 1939.

By the Commission.

[File No. 1-2093]

IN THE MATTER OF THE REGISTRATION OF
BELMONT OSBORN GOLD MINING COM-
PANY COMMON CAPITAL STOCK, 10
CENTS PAR VALUE, ASSESSABLE

ORDER AMENDING ORDER FOR HEARING AND
DESIGNATING OFFICER TO TAKE TESTIMONY

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 26th day of August, A. D. 1940.

The Commission on August 5, 1940, having ordered that a hearing¹ be held to determine whether registration of the Common Capital Stock, 10 Cents par value, Assessable, of Belmont Osborn Gold Mining Company, on the San Francisco Mining Exchange should be suspended or withdrawn, hereby amends such order to add as a part of and at the end of Section I the following paragraphs:

"That said Rule X-13A-1 requires that said annual report be filed not more than 120 days after the close of each fiscal year or such other period as may be prescribed in the instruction book applicable to the particular form; that the instructions to Form 10-K do not prescribe any period other than such 120 days; and that pursuant to said Rule

X-13A-1 the annual report must be filed within this initial period unless the registrant files with the Commission a request for an extension of time to a specified date within six months after the close of the fiscal year; and

"It further appearing to the Commission:

"That said Belmont Osborn Gold Mining Company has a fiscal year ending December 31; that the annual report for its latest fiscal year ended December 31, 1939, was due to be filed not later than April 30, 1940; that no request for extension to a specified date within six months after the close of its fiscal year was filed by said Belmont Osborn Gold Mining Company; and that no annual report for the fiscal year ended December 31, 1939, was filed by July 1, 1940, within the maximum period allowable under the rule; and"

The Commission further amends such order by substituting for all of Section II thereof the following new Section II:

"The Commission having reasonable cause to believe:

"That said Belmont Osborn Gold Mining Company has failed to comply with said Section 13 and said Rules X-13A-1 and X-13A-2 in that it has failed to file within the time prescribed for filing its annual report on Form 10-K for the fiscal year ended December 31, 1939; and"

so that the said order as amended shall read as follows:

I

It appearing to the Commission:

That Belmont Osborn Gold Mining Company, a corporation organized under the laws of the State of California, is the issuer of Common Capital Stock, 10¢ Par Value, Assessable; and

That said Belmont Osborn Gold Mining Company registered such security on the San Francisco Mining Exchange, a national securities exchange, by filing on or about August 26, 1935, an application on Form 10 with the said Exchange and with the Commission, pursuant to section 12 (b) and (c) of the Securities Exchange Act of 1934, as amended, and pursuant to Rule X-12B-1, as amended, promulgated by the Commission thereunder, which application became effective June 1, 1936, and has remained in effect to and including the date hereof; and

It further appearing to the Commission:

That Rule X-13A-1, promulgated pursuant to section 13 of said Securities Exchange Act of 1934, as amended, did and does require that an annual report for each issuer of a security registered on a national securities exchange shall be filed on the appropriate form prescribed therefor; and

That Rule X-13A-2, promulgated pursuant to section 13 of the Securities Exchange Act of 1934, as amended, did and does prescribe Form 10-K as the annual report form to be used for the annual reports of all corporations except those for which another form is specified, and that no other form was or is specified for use by the said Belmont Osborn Gold Mining Company; and

That said Rule X-13A-1 requires that said annual report be filed not more than 120 days after the close of each fiscal year or such other period as may be prescribed in the instruction book applicable to the particular form; that the instructions to Form 10-K do not prescribe any period other than such 120 days; and that pursuant to said Rule X-13A-1 the annual report must be filed within this initial period unless the registrant files with the Commission a request for an extension of time to a specified date within six months after the close of the fiscal year; and

It further appearing to the Commission:

That said Belmont Osborn Gold Mining Company has a fiscal year ending December 31; that the annual report for its latest fiscal year ended December 31, 1939, was due to be filed not later than April 30, 1940; that no request for extension to a specified date within six months after the close of its fiscal year was filed by said Belmont Osborn Gold Mining Company; and that no annual report for the fiscal year ended December 31, 1939, was filed by July 1, 1940, within the maximum period allowable under the rule; and

II

The Commission having reasonable cause to believe:

That said Belmont Osborn Gold Mining Company has failed to comply with said section 13 and said Rules X-13A-1 and X-13A-2 in that it has failed to file within the time prescribed for filing its annual report on Form 10-K for the fiscal year ended December 31, 1939; and

III

It being the opinion of the Commission that the hearing herein ordered to be held is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Securities Exchange Act of 1934, as amended;

It is ordered, Pursuant to section 19 (a) (2) of said Act, that a public hearing be held to determine whether Belmont Osborn Gold Mining Company has failed to comply with section 13 of the Securities Exchange Act of 1934, as amended, and the rules, regulations and forms promulgated by the Commission thereunder, in the respects set forth above; and if so, whether it is necessary or appropriate for the protection of in-

¹ 5 F. R. 2778.

vestors to suspend for a period not exceeding twelve months or to withdraw the registration of the Common Capital Stock, 10¢ Par Value, Assessable, of said Belmont Osborn Gold Mining Company on said San Francisco Mining Exchange;

It is further ordered, Pursuant to the provisions of section 21 (b) of the Securities Exchange Act of 1934, as amended, that for the purpose of such hearing, John G. Clarkson, an officer of the Commission, is hereby designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take testimony and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law;

It is further ordered, That the taking of testimony in this hearing begin on the 3rd day of September, 1940, at 10:00 A. M. at the Regional Office of the Securities and Exchange Commission, 625 Market Street, San Francisco, California, and continue thereafter at such time and place as the officer hereinbefore designated may determine.

[File No. 70-123]

IN THE MATTER OF COPPER DISTRICT
POWER COMPANY

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 26th day of August, A. D. 1940.

The above-named company having filed an application pursuant to the Public Utility Holding Company Act of 1935, particularly section 6 (b) thereunder, regarding the issue and sale to Modern Woodmen of America, Central Life Insurance Company of Illinois, National Guardian Life Insurance Company, and Price Brothers Company, of \$250,000 principal amount of First Mortgage Bonds, Series A, 4½%, due June 1, 1956 at 99% of the principal amount thereof; and

Said application having been filed on July 26, 1940, and certain amendments having been filed thereto, the last of said amendments having been filed on August 23, 1940, and notice of said filing having been duly given in the form and manner prescribed by Rule U-8 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said application within the period specified within said

notice, or otherwise, and not having ordered a hearing thereon; and

The above-named company having requested that said application, as filed or as amended, be granted on or before August 26, 1940; and

The Commission finding with respect to said application under section 6 (b) of said Act that the issue and sale of such securities are solely for the purpose of financing the business of Copper District Power Company and have been expressly authorized by the Public Service Commission of Michigan and being satisfied that the date of granting such application should be advanced;

It is hereby ordered, Pursuant to said Rule U-8 and the applicable provisions of said Act and subject to the terms and conditions prescribed in Rule U-9 that the aforesaid application as amended be and hereby is granted, said order to become effective forthwith.

By the Commission.
